

Configuring the Ericsson T68i with the Motorola Headset

SUPPORT GUIDE FOR MOTOROLA PHONES

Configuring the Ericsson T68i with the Motorola Headset

1. Press the *Menu* button on the phone.
2. Scroll down to *Connect* and press *Yes* to select.
3. Scroll down to *Discover* and press *Yes* to select.
4. Press and hold the *Multi-function* button on the headset until the light turns solid blue and open the boom.
5. The phone will display *Motorola Headset*.
6. The phone will then ask to *Add to Paired Devices*; press *Yes* to select.
7. When prompted to enter the *Password*, enter **0000** then *OK*.
8. The phone will scroll through *Motorola Headset Pairing*.
9. In the *Linked Devices* menu, scroll down and select *Motorola Headset*.
10. Once you have selected the *Motorola Headset*, you will have an option to *Connect*. Press *Yes* to select.
11. You will then be able to place a call and the audio will be routed through the headset.
12. When the boom on the headset is closed, it will automatically disconnect the headset from the phone. The next time that the boom is opened on the headset, the Bluetooth link will automatically be formed again and will automatically connect.
