

**Configuring the Motorola 270c with the Jabra Bluetooth Headset.**

**SUPPORT GUIDE FOR  
MOTOROLA PHONES**

## **Configuring the Motorola 270c with the Jabra Bluetooth Headset.**

Currently, this configuration is not supported. Both the phone and the Jabra headset, are Bluetooth 1.1 compliant but they will not communicate consistently with each other. They will often times find each other but will not pair properly and connect. This information has been confirmed by Motorola as well as Jabra.
