

Motorola V710

It's simple: life's not only more efficient with the new Motorola V710 phone, it's more fun. It's not just talk anymore -- all your imaging and music dreams are fulfilled in one totally connected device. Snap megapixel quality photos, shoot video, download MP3s and then store, share or enjoy. All the right benefits, all in one place, all designed so operating each feature is intuitive, intelligent, and integral to the way we live now.

- **MotoPhone . . . or MotoFun - It's both!** The Motorola V710 brings megapixel quality to your snapshots, allowing for clear, vivid images that you can save, send and print. When the moment calls for a moving memory, the model V710 brings video capture and playback for up to three minute video clips. With 10 MB of memory, and the ability to upgrade up to 128 MB with a TransFlash removable memory card, there are no constraints, and no boundaries.
- **Time to get Serious?**
When it is time to get serious and get back to work, the V710 is an efficient partner. With an integrated hands-free speakerphone for conference calls on the go, PIM, PC sync, talking phonebook and advanced Voice Recognition, the model V710 keeps you connected when it matters most.
- **Groove at Your Own Pace, Move in Your Own Space**
With the convenience of Bluetooth® wireless technology you're free to connect where you want, when you want. Bluetooth® wireless technology allows you to place calls, connect to your PC or PDA or even use speaker-independent speech recognition for hands-free, eyes-free operation. Just say the name of the person you're calling into your compatible Bluetooth headset — no need to previously record the name in your own voice — and in an instant you're connected. That's convenience! The Motorola V710 frees you to live your life at your own pace, yet do it safely.
- **MotoMusic: Hear it Clear**
The model V710 will keep you rocking with an integrated MP3 player and MP3 ringtones. Download* your favorite tunes and enjoy them on the phones high-quality speaker or privately through the compatible stereo headphone accessory.
