

MOTOROLA V176

The Motorola V176 offers a suite of communication tools to keep you on task and in touch with supreme convenience – with an unassuming price tag that won't dent your bank account. With Push-to-Talk over Cellular technology (PoC)², you'll experience impressive connectivity speeds, giving you the ability to connect with one contact or an entire group with the simple push of one button. And while it is compact in size, the Motorola V176 houses an impressively large color display, ideal for Web browsing¹ or viewing a scenic screensaver. All this and a price tag that lets you adhere to your budget ... the Motorola V176 is practical and playful all at once.

Precious Time

The Motorola V176 speaks your language so you can get the job done – whether choosing Push-to-Talk over Cellular² to connect walkie talkie-style with your boss in real-time or multi-task, using the mobile's speakerphone to conduct a conference call while working on a laptop. With Instant Messaging (IM)¹, you don't have to talk at all – just type away and get immediate answers.

Eye Opener

Measuring 1.8 inches diagonally with a resolution of 128 x 160 pixels, the Motorola V176's color display provides a large, vivid backdrop for images and information. With Multimedia Messaging Service (MMS)¹, you can send messages with attached visuals¹ to emphasize your point. The WAP browser with GPRS¹ allows 'always on' access to the Internet for continuous connections to breaking news¹, stock market updates¹ and sports scores¹.

Exceptional Energy

You won't find a catch to this sweet mobile deal. Designed to keep its power as long as you do, the Motorola V176 boasts impressive juice to keep you connected without pause. The ability to download¹ personal screensavers, wallpapers, musical ringtones and games is icing on the cake.

The Motorola V176 is expected to be available in Q3 2005. For more information regarding pricing and product availability in your region, please contact your local Motorola representative.

¹ Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

² The Push To applications and the other features indicated are network and subscription dependent features, and are not available in all areas. Push To connectivity requires Push to compatible phones.
