

MOTOROLA E895

Streamlined and distinctively designed, the Motorola E895 delivers a robust suite of intuitive multimedia tools to capture everyday escapades including a 1.3 megapixel camera, video record and playback and optional removable memory. When its music that moves you, enjoy MP3s or create a personalized soundtrack as background music for a slideshow of your favorite photos. Tuned in to you, the Motorola E895 pairs a next generation Linux Operating System (OS) and Java™ technology with an improved user interface with prediction features and large, vivid internal and external displays. Whether sharing photos from a recent getaway, managing your many messages or enjoying the convenience of Bluetooth® wireless technology, the Motorola E895 provides a powerful mobile experience.

Supreme Multimedia Intelligence

From your backyard to Bangladesh, the tri-band Motorola E895 is armed and ready with a multitude of multimedia tools. Snap high-quality images via the 1.3 megapixel camera then create a mobile slideshow of your latest jaunt enhanced with MP3 tunes. Or capture life in real time with video record and playback and share via advanced messaging*. And, with up to 512 megabytes of optional removable memory, you can store all your favorite music and photo files.

Cool Tech Combo

Combining EDGE capabilities*, a Linux OS and Java technology, the Motorola E895 provides power, speed and flexibility for managing your multimedia needs. The model E895 surpasses predecessors with user-friendly features for everything from messaging management to predictive tools. And MOTOSYNC™ makes synchronizing on-the-go emails*, calendars and contacts management quick and easy.

Highly Organized

This smart mobile makes your life easy by keeping your frequent contacts at the top of your contact list and organizing photos and messages for easy perusing. You can also access more than one function at once -- so you can respond to a message while on a call or while surfing the web* on the full HTML browser making you a true mobile multi-tasker.
