

MOTOROLA S9-HD

The wireless music experience has been enhanced with an upgraded version of the award-winning MOTOROKR S9, the Motorola S9-HD™. Freedom to exercise¹, move around and commute without wires to tangle or hold you back, is now enhanced with high-definition audio and ear buds that reduce background noise and improve comfort. The S9-HD is the new benchmark of wireless music powered by Bluetooth® wireless technology².

Starting with an Award-Winning Design

All the great features that made the MOTOROKR™ S9 a sensation in 2007 are present in the S9-HD. Weighing barely an ounce, they are lighter than an average pair of sunglasses! The unique behind-the-head design creates a secure and stable fit – even in active conditions¹ – plus easy to use controls for track selection, volume, play/pause and send/end that allow you to manage music and calls from the headphones earned the MOTOROKR S9 top honors in the Best Headphones category for the Consumer Electronic Association’s 2008 International CES Best of Innovations Design and Engineering awards.

High Definition Audio

Immerse yourself in your music with the 3-D surround sound and high-definition acoustics from SRS WOW HD™ technology. Leave the outside world behind as you feel every beat and focus on the space your music creates around you with enhanced bass and noise isolation. The S9-HD wraps you in rich sound quality, not wires, so you’re free to control your music and calls while staying active¹.

Music and Calls

Connect to a compatible Bluetooth-enabled music phone or MP3 player², or use the Motorola D650 (sold separately) to pair with most iPod® players. Never miss a call, music mutes or pauses when a call comes in and resumes when the call is over. Enjoy six hours of play time from a single charge.

MOTOROLA S9-HD			
Dimensions	126mm x 130mm x 48mm Ear buds: 13mm
