

Durability Meets Style

The Motorola i776w is the newest slim handset to combine Motorola's iDEN technology, a VGA Camera and Bluetooth® Wireless Technology¹ in a fun and fashionable flip form factor, providing dependable communication at the touch of a button. A robust push-to-talk offering is available in an affordable slim stylish package with premium finishes.

Basics:

- **Form factor:** Clamshell
- **Dimensions:** 3.39" x 1.8" x 0.8"
- **Weight** 3.56 ounces
- **Network:** iDEN® 800/900 MHz for Walkie Talkie, interconnect and data
- **Main Display:** 64K colors; 20480 pixels, TFT
- **Sub-Display:** 64K colors; 4096 pixels
- **Battery Specifications:** Standard Capacity Li-Ion Battery
- **Talk Time:** 205 minutes²

Features:

- **Built-in Camera:** Embedded VGA-quality camera to capture and share images.
- **Bluetooth Wireless Technology:** Enables hands-free, short-range wireless communication using a compatible Bluetooth enabled headset and wireless uploading/downloading to or from a computer¹
- **Walkie-Talkie Features:**
 - Instant, one-to-one push-to-talk communication nationwide with any other Nextel Direct Connect subscriber.³ Ideal for quick, to the point conversations with families, friends, and co-workers.
 - International Walkie-Talkie communication with walkie-talkie users in other countries, including Canada, Mexico, Argentina, Brazil, Chile and Peru at the push of a button.⁴
 - MOTO TalkSM all-digital off-network push-to-talk service that works anywhere, anytime between compatible phones for short-range communications (range will vary based on terrain and conditions and in-building performance). MOTOtalk provides a reliable back-up communications tool in times of emergency, network outage, or when working in or traveling to remote areas where coverage is not available.
 - Push-to-X to send pictures, messages, calendar information or contact information to other PTT-capable phones...with a quick push of the button!³
- **Multimedia Messaging Service:** Send or receive Multimedia Messages (either audio, images, text, or all three in the same message) to or from email addresses and other capable users. You can even wirelessly store multimedia on the Sprint web site.³
- **GPS Navigation:** Features an embedded Global Positioning System (GPS) chip necessary for utilizing the E911 emergency location services where available and receiving audible and visual turn-by-turn driving directions, mapping your location, or conducting local searches direct from your handset.³
- **Time/Date:** Current date and time information anywhere on the network.³
- **VibraCall™ Alert:** Notifies you of incoming phone calls, walkie-talkie calls, messages and voicemail without a sound.
- **Speakerphone:** Hands-free cellular conversations are always available with the built-in speakerphone.

¹This device supports Bluetooth A2DP and AVRCP profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.motorola.com/bluetooth. For other devices, contact their respective manufacturer. Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers.

²All talk and standby times are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.

³ Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply. PTT and Send via PTT connectivity requires compatible phones.

⁴ International Push-To-Talk is currently enabled in the Americas between Canada, the U.S., Argentina, Brazil, Peru, Chile and Mexico and also in the Middle East between Israel and Jordan.

Contact your wireless carrier about feature availability and functionality.

Certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Additionally, certain features may require a subscription.
