CONGRATULATIONS

DROID BIONIC™ BY MOTOROLA

DROID BIONIC by Motorola doesn’t just raise the bar—it gives the bar altitude sickness. With tons of advanced features, you’ll be able to do nearly everything with your smartphone—video, web browsing, multimedia, and more.

• Surf the web with a blistering fast dual-core 1 GHz processor. 4G LTE connectivity gives you download speeds up to 10x faster than before.
• The webtop application lets you extend your DROID BIONIC with a full Firefox® browser, multi-window capabilities, keyboard and mouse support—all on the big screen.
• Capture life’s moments in full 1080p HD video. Use the connected Gallery to gather all your photos and your friends’ online albums in one place.

Note: Certain apps and features may not be available in all countries.

Caution: Before assembling, charging, or using your smartphone for the first time, please read the important safety, regulatory and legal information provided with your product.

SAR

This product meets the applicable limit for exposure to radio waves (known as SAR) of 1.6 W/kg (FCC & IC). The limits and guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The highest SAR values measured for this device are listed in the regulatory information packaged with your product.

Notes:
- All screens in this guide are simulated. Actual displays may vary.
- Instructions to perform tasks in this guide may change depending on the software version on your smartphone.
- Unless specified, instructions to perform tasks in this guide assume that you are starting from the home screen.

Your smartphone
the important keys & connectors

Note: Your smartphone might look a little different.
Let’s go

let’s get you up and running

ASSEMBLE & CHARGE

Tip: In the unlikely event that your device becomes unresponsive, remove and re-insert the battery.

Tip: To save battery life, see “BATTERY LIFE” on page 28.
SET UP & GO

1. Turn on.
2. Select a language.
3. Complete initial setup steps.

Follow the on-screen instructions to backup or restore your contacts, set up personal and corporate email accounts, and set location preferences on your smartphone.

Note: This smartphone supports apps and services that use a lot of data, so make sure your data plan meets your needs. Contact Verizon Wireless® for details.

GOOGLE™ ACCOUNT SETUP
Your Google™ account gives you access to Google services like your Gmail™ and contacts, Google+™, Google Play™, and more.

Registration is secure and only takes a few minutes—sign into your account when you set up your smartphone, or anytime by touching Menu > System settings > Accounts & sync > ADD ACCOUNT > Google.

For help with your Google account, visit http://accounts.google.com. To edit or delete accounts, see "MANAGE ACCOUNTS" on page 52.

WELCOME HOME TO MOTOROLA
Switching from an Apple™ or Blackberry phone? Get all your important information set up on your new Motorola smartphone in a few easy steps. The Welcome Home To Motorola application transfers contacts, email addresses, calendar meetings, events, tasks, music, playlists, photos, and videos from your old phone to your new Motorola smartphone.

To move information from your old phone to your Motorola smartphone:
1. Use your computer browser to navigate to www.markspace.com/welcomehome/, and download the free Microsoft® Windows® or Apple™
Let’s go version of the Welcome Home To Motorola application to your computer.

2 Install and run the application on your computer.

3 Follow the application instructions on your computer to transfer information from your old phone to your Motorola smartphone.

The Welcome Home To Motorola application will prompt you to connect your old phone to the computer with a USB cable, and backup the data you want to transfer.

Next, install the Welcome Home To Motorola app on your Motorola smartphone, connect the smartphone to your computer with a USB cable, then transfer and unpack the data onto the Motorola smartphone.

**WI-FI CONNECT**

To use a Wi-Fi network for Internet access, touch the status bar at the top of the home screen and drag it down. Touch the **Wi-Fi networks available** notification to select a preferred network.

You can also touch Menu > **System settings** > **Wi-Fi**, then touch the **Wi-Fi** power switch to turn it on to scan and connect to wireless networks. There’s more in “**WI-FI NETWORKS**” on page 44.

**WI-FI ENHANCED CONNECTIVITY**

Conserve your monthly data allowance by switching from the Verizon network to a Wi-Fi network for your Internet connections.

When you use the browser or other Internet apps, your smartphone scans for Wi-Fi networks (even when Wi-Fi is turned off) and prompts you to switch to a Wi-Fi network. If you have a usage-based data plan, you can conserve your monthly data allowance by using a Wi-Fi connection.

**COOL CONTENT & MORE**

Browse hundreds of thousands of the coolest apps on the planet, and download the newest music, movies, books, magazine, and games, all from Google Play™. Touch Apps > **Play Store**.

Download new apps with “**BROWSE & INSTALL APPS**” on page 13. You can install a microSD memory card in your smartphone, and load it up with photos, videos, and music from your computer (see “**MEMORY CARD & FILE MANAGEMENT**” on page 51).
CONTROL
a few essentials

TOUCH GESTURE
- Touch: Choose an icon or option.
- Touch & Hold: Select an item and open an action bar.
- Drag: Move items in the home screen, or scroll slowly through lists.
- Flick: Scroll quickly between views or through lists.
- Pinch or double-touch: Zoom in and out on websites, photos, and maps.

UNLOCK & LOCK TOUCHSCREEN
To unlock the screen, press the Power key, then touch and flick to Unlock.
To lock the screen, press the Power key, or let the screen time out (don’t press anything).
MENU, HOME, BACK, & SEARCH

Touch Home  to close a menu or app and return to the home screen. In the home screen, touch and hold Home  to see a list of recent apps, then touch an app to open it.

Tip: To remove an item from the recent apps list, flick it left or right.

Touch Menu  to open options for the current app or screen.

Touch Back  to go back.

Touch Search  for text search. Touch and hold for voice search or to perform voice actions.

TOUCHSCREEN ON/OFF

To save your battery, prevent accidental touches, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing the Power key. To wake up the touchscreen, just press the Power key again.

To change how long your smartphone waits before the screen goes to sleep automatically, touch Menu  > System settings > Display > Sleep.

Tip: To make the screen lock when it goes to sleep, see “SCREEN LOCK” on page 85.

Note: Your touchscreen might stay dark if the sensor just above it is covered. Do not use covers or screen protectors (even clear ones) that cover this sensor.

ROTATE THE SCREEN

When you turn your smartphone, the touchscreen can rotate to stay right-side up:

Find it: Menu  > System settings > Display > Auto-rotate screen

PRESS

POWER KEY MENU

Press and hold the Power key to turn off your smartphone (Power off), turn off all wireless connections and put the smartphone into low-power Sleep mode, turn Airplane mode on and off, or change the sound setting.
VOLUME KEYS
Press the volume keys to change ring volume (in the home screen) or earpiece volume (during a call).
When playing music or videos, press the volume keys to adjust media volume.
Tip: When your smartphone rings, press a volume key to quickly silence your ringtone.

SPEAK

VOICE ACTIONS
You can do a lot of things just by talking to your smartphone—call or text your friends, get directions, set an alarm, and more.

1 Touch and hold Search .
   Tip: You can also touch in the Google™ Search widget in the home screen.
2 Say what you want to do.
If your smartphone doesn’t understand what you said, it presents a list of search terms and actions you can touch to choose.

Some actions, like “send email” and “note to self,” open a panel that prompts you to complete the action by speaking or typing more information.

<td>Home</td>
</tr>
<tr>
<td>Wake up your smartphone.</td>
<td>Power key</td>
</tr>
<tr>
<td>Reboot an unresponsive smartphone.</td>
<td>Remove and re-insert the battery.</td>
</tr>
</tbody>
</table>

**Home Screen**
*quick access to the things you need most*

**Quick Start: Home Screen**
The home screen gives you all your latest information in one place. It’s what you see when you turn on your smartphone or touch Home.

![Home screen diagram](diagram.png)

- **Status Bar**
  - Notifications
  - Drag this bar down to see details.
- **Widget**
  - Flick left or right to see more panels of widgets & shortcuts.
- **Shortcuts**
  - Touch to open.
- **Favorites Tray**
  - Touch Apps to see all your apps & widgets.

**Note:** Your home screen might look a little different.
USE & CHANGE YOUR HOME SCREEN

On your home screen, shortcuts are icons that open your favorite apps, web bookmarks, contacts, mail labels, playlists, and more. Widgets are live apps or tools that provide news, weather, messages, and other updates.

To see other panels of shortcuts and widgets, flick the home screen left or right.

- To open something, touch it. Touch Home or Back to return to the home screen.

  Tip: When you open a widget, touch Menu to see any options or settings. You can choose accounts for some widgets, like Calendar, Email, Facebook, and Gmail.

- To resize widgets, touch and hold a side until you feel a vibration, then drag the blue diamonds.

- To add shortcuts to the home screen, touch Apps, touch and hold an app, then drag it to a spot on a home screen panel.

  To create a shortcut folder, drag one shortcut onto another to put them both in a folder. To add other shortcuts, drag them onto the folder icon. To name the folder, touch it and enter a name at the bottom.

- To add widgets, touch Apps, touch WIDGETS at the top, then touch and hold a widget.

- To move widgets or shortcuts, touch and hold them, then drag to a new location.

- To remove shortcuts or widgets from the home screen, touch and hold them, then drag to Remove at the top.

- To change wallpaper, touch and hold a blank spot on the home screen.

Shortcuts in the favorites tray at the bottom of the home screen appear in all home screen views. You can touch and hold shortcuts or folders to drag them in or out of the favorites tray.

SEARCH

Touch Search, touch the Google text box that appears, then start typing your search text.

As you type, suggestions appear below the search field:

- To search for a suggestion, touch it.
- To add a suggestion to the search field, touch the arrow beside it.
- To search for the text in the search field, touch on the touchscreen keypad.

The browser shows a list of search results.
To adjust Google Search privacy settings from the search window, touch Menu > Settings > Google Search.

SMARTPHONE STATUS & NOTIFICATIONS

Icons at the top right of the screen show status information like signal strength, battery level, and time.

Icons at the top left show messages and app notifications. To see your notifications, touch the status bar and drag it down. Touch a notification to select it.

Tip: To remove a notification from the list, flick it left or right. To clear all notifications, touch X.

STATUS & NOTIFICATION ICONS

<table>
<thead>
<tr>
<th>Network Full Signal</th>
<th>3G Connection</th>
</tr>
</thead>
<tbody>
<tr>
<td>Network Roaming</td>
<td>4G Connection</td>
</tr>
<tr>
<td>No Network Connection</td>
<td>Airplane Mode</td>
</tr>
<tr>
<td>Wi-Fi in Range</td>
<td>Bluetooth On</td>
</tr>
</tbody>
</table>

Tip: Network and Wi-Fi connection icons turn blue when your smartphone exchanges data with your Google account.

Note: Apps you download from Google Play™ may show other icons in the status bar to alert you to specific events.
**APPS & UPDATES**
get the app you want

**QUICK START: APPS & UPDATES**
Touch Apps ( ) in any home screen panel, then flick left to see all your apps.
To close the apps screen, touch Home ( ) or Back ( ).

**BROWSE & INSTALL APPS**
One of the great things about a smartphone is the apps. Whatever you’re into, whatever you want to do, there’s probably an app that can help you. So, go to the place that has it all, Google Play™ Store.

Find it: Apps ( ) > Play Store
Scroll to and touch the app you want to install. Then, touch Install (if app is free) or Buy.
New apps that you install are added to the apps screen.
Tip: Choose your apps and updates carefully, from trusted sites, like Play Store, as some may impact your smartphone’s performance—see “CHOOSE CAREFULLY” on page 14.

**Note:** When installing an app, make sure you read the alerts that tell you what information the app will access. If you don’t want the app to have access to this information, cancel the installation.

**CREATE SHORTCUT FOLDERS**
You can use home screen folders to logically group and store your app shortcuts in a single location.
To create a shortcut folder in the home screen, drag one shortcut onto another to put them both in a folder. To add other shortcuts, drag them onto the folder icon. To name the folder, touch it and enter a name at the bottom.

**RECENT APPS**
Your smartphone remembers the apps that you used most recently. From the home screen, touch and hold Home ( ) to see the most recent apps used.
Tip: To remove an item from the recent apps list, flick it left or right.

**MANAGE & RESTORE APPS**
From the home screen, touch Menu ( ) > Manage apps.
Touch an app to see its file size, access permissions, and other details, then touch Disable, Force stop, Uninstall (for apps you downloaded), Clear cache, or other options.
To reinstall apps from Google Play, touch Apps ( ) > Play Store, then touch Menu ( ) > My Apps > ALL.
Apps that you have previously purchased from Google Play are listed and available for download.

**CHOOSE CAREFULLY**

Apps are great. There’s something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips:

- To help prevent spyware, phishing, or viruses from affecting your smartphone or privacy, use apps from trusted sites, like [Play Store](#).
- In [Play Store](#), check an app’s ratings and comments before installing.
- If you doubt the safety of an app, don’t install it.
- Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you’re not happy with how much memory, data, battery or processing power it’s using, uninstall it. You can always install it again later.
- Just like web browsing, you may want to monitor childrens’ access to apps to help prevent exposure to inappropriate content.
- Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

**IMPORTANT CUSTOMER INFORMATION**

Please be advised that many services and applications offered through this unique device are provided by Google and various application developers. If you use, link to, or download a Google service, or an application such as a non-Verizon Wireless location based GPS-type service, chat room, marketplace or social network from this device, you should carefully review the terms of such service or application. If you use any of these non-Verizon Wireless services or applications, personal information you submit may be read, collected, or used by the service or application provider and/or other users of those forums.

Motorola Mobility, Inc. and Verizon Wireless are not responsible for your use of those applications or information you choose to submit or share with others. Specific terms and conditions, terms of use, and privacy policies apply to those applications and services. Please review carefully any and all terms and conditions applicable to those applications and services including those related to any location-based services for any particular privacy policies, risks or waivers.

Your Verizon Wireless customer agreement terms and conditions and certain other specifically identified terms govern your use of any Verizon Wireless products and services.
UPDATE MY SMARTPHONE
You can check, download, and install smartphone software updates using your smartphone, or using your computer:

- Using your smartphone:
  You may get an automatic notification of an available update on your smartphone. Simply follow the instructions to download and install.
  To manually check for updates, touch Menu > System settings > About phone > System updates.
  Your smartphone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don’t have an unlimited data plan, or mobile network updates are not available in your country, you can update using a computer.

- Using your computer:
  On your computer, go to www.motorola.com/support and check the “Software” links. If an update is available, follow the installation instructions.

CALLS
it’s good to talk

QUICK START: CALLS
In the home screen, touch Phone.
Tip: When the smartphone is locked, touch and flick to Phone.

DIALER
Most Recent Call
Flick the screen left or right to see dialer, recent calls, or your favorites list.

Add Number to Contacts

Call
Enter a phone number & touch here to call it.

Voice Dial
**Tip:** Search for contacts right from the dialpad. For example, to find Jeff in your contacts list, touch 5-3-3-3. Matching contacts appear above the number field.

**DURING A CALL**

To use a Bluetooth® device, touch Bluetooth®. (The device must be turned on and previously paired—see "CONNECT NEW BLUETOOTH DEVICES" on page 46.)

**Tip:** You can touch Home or Back to leave the active call display. To reopen it, touch Home > Phone.

**Note:** Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

**MAKE & ANSWER CALLS**

To **make** a call, touch Phone, enter a number, then touch .

**Tip:** When the smartphone is locked, touch and flick to Phone to make a call.

**Tip:** When you hold your smartphone to your ear, the display goes dark to prevent accidental touches. When you move the smartphone away from your ear, the display lights up again.

To **answer** a call, touch and flick to .

To send an incoming call to your voicemail, touch and flick to .
To send a pre-set text message to the caller, touch  and flick to . Select a message to immediately send it.

**Tip:** To silence an incoming call alert, press the Power key or the volume keys.

**RECENT CALLS**
Find it: Phone > Recent
- To call a number, touch † next to the entry.
- To see call details, touch the entry.
- To send a text message, create a contact, view a contact, or other options, touch and hold the entry.
- To search the recent calls list, touch .
- To clear the list, touch Menu (Ê) > Clear List.

**FAVORITES**
Find it: Phone > Favorites
Touch a contact to call it, or to perform other operations like text or email (if available).

**CONFERENCE CALLS**
To start a conference call, call the first number. After the call connects, touch Add call. Dial the next number, or select it from contacts or favorites. When the next number answers, touch Merge.

**YOUR PHONE NUMBER**
Find it: Menu (Ê) > System settings > About phone > Status > My Phone number

**EMERGENCY CALLS**
Note: Your service provider programs one or more emergency phone numbers that you can call under any circumstances, even when your smartphone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1. Touch Phone (if your smartphone is locked, touch Emergency Call).
2. Enter the emergency number.
3. Touch † to call the emergency number.

**Note:** Your smartphone can use location based services (GPS and AGPS) to help emergency services find you. See “LOCATION SERVICES” on page 64.
COOL DOWN
In very limited circumstances, such as where your smartphone has been exposed to extreme heat, you may see “Cool Down” messages. To avoid possible damage to your battery and smartphone, you should follow these instructions until the smartphone is within its recommended temperature range. When your smartphone is in “Cool Down” mode, only emergency calls can be made.

MORE CALLING FEATURES

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>speed dial</td>
<td>Your smartphone can store nine phone numbers that you can call with a single keypress. To store a speed dial number, touch Phone &gt; Menu (重要的) &gt; Speed dial setup, and insert a number in an empty speed dial slot. To call a speed dial number, touch and hold the single-digit speed dial number in the dialer screen.</td>
</tr>
<tr>
<td>voice dial</td>
<td>Touch and hold Search (重要的), then say the contact name, business name, or phone number you want to call.</td>
</tr>
</tbody>
</table>

Feature

international calls
If your phone service includes international dialing, press and hold 0 to insert your local international access code (indicated by *). Then enter the country code and phone number.

voicemail
To listen to your voicemail messages, touch & hold 1 in the dialer screen.
Contacts

be a people person

Quick Start: Contacts

Find it: Apps > People

- Create & view groups of contacts.
- Touch to view contact information, call, send a text message, & more.
- Touch a letter to jump to contact names that start with that letter.
- Search the list.
- Go to the dialpad to search for contacts.
- Add contacts.

Transfer Contacts

Get all your contacts, all in one place. Here are a few helpful hints:

- Use Backup Assistant™ Plus
  Backup Assistant Plus is a free service from Verizon Wireless that saves your smartphone’s contacts to a secure server. If your smartphone is lost or damaged, or if you upgrade to a new smartphone, Backup Assistant Plus will restore your contacts. From the home screen, touch Menu > System settings, scroll to PERSONAL and touch Backup Assistant+ Contacts. Then, enter your password.
  Note: Backup Assistant Plus is subject to specific terms of use. Results may vary based on backup schedule and other factors. See verizonwireless.com/baplus for more details.

- Use Gmail™
  When you set up or sign in to your Google™ account on your smartphone, all your Gmail contacts are synced automatically with your People app. After that, your contacts stay in sync whether you make changes on your smartphone, from another device, or from a web browser. Most contact applications for mobile phones and email accounts allow you to export your contacts as a .csv file. You can then use Gmail to import the file. For more details, go to...
www.motorola.com/transfercontacts or log in to your Gmail account on your computer and select “Help.”

• More
  There are other methods and tools to help you at www.motorola.com/transfercontacts.

**LINK CONTACTS**

You might have two or more contacts for the same person, maybe a Gmail contact who is also stored on your smartphone, or one friend with two email addresses. To combine these contacts:

**Find it:** Apps ☰ > _people
  Touch a contact to open it, touch Menu > Edit > Menu > Join, then touch the second contact.

**CALL OR EMAIL CONTACTS**

**Find it:** Apps ☰ > _people

• To call a contact, touch the contact’s name, then touch the number you want to call. To send a text message, touch a next to the number.

• To email a contact, touch the contact’s name, then touch the contact’s email address.

**VIEW & USE CONTACTS**

**Find it:** Apps ☰ > _people

• To find a contact, touch and type the contact name. Touch a contact to open its details. You can start a call or message by touching the phone number, messaging button, or email address.

• To change which group of contacts is shown (like All contacts or contacts from your Gmail account) touch Menu > Contacts to display.

• To change how you view the list of contacts, touch Menu > Settings > Display options.
CREATE CONTACTS
Find it: Apps > People (at the bottom of the screen)

Touch any entry area to open the touchscreen keypad. When you’re finished, touch Save.

Where are contacts saved? Your smartphone saves new contacts in its memory, and on the Backup AssistantSM Plus server if you set up an account. If you set up a Google™ account on your smartphone, the contacts are synced with the remote Google server, and can be accessed from every device you use to access your Google account.

FAVORITES
To add a contact to your favorites list, touch the contact to open it, then touch ★.
To see your favorites list:
Find it: Apps > People > FAVORITES

EDIT OR DELETE CONTACTS
Find it: Apps > People > contact > Menu > Edit or Delete

SYNCHRONIZE CONTACTS
When you change one of your contacts, your smartphone automatically updates your other accounts. When you change a contact in one of your other accounts, your smartphone updates the contact information in your People app.

PERSONALIZE CONTACTS
Find it: Apps > People
Add a photo: Touch contact > Menu > Edit > .
Set a ringtone: Touch contact > Menu > Set ringtone.
GROUPS
Find it: Apps > People > GROUPS > group name
You can put your contacts into groups (like “Friends” or “Family”) to make it easier to find them.
To create a new group, touch Apps > People > GROUPS > .
To add contacts to a group, select the group, and touch Menu > Edit.

MESSAGES
sometimes it’s best to text, or IM, or email . . .

READ & REPLY TO MESSAGES
Find it: Apps > Text Messaging
Tip: When the smartphone is locked, touch and flick to Text.
• To open a text message and all of its replies, touch it.
• To respond to a text message, open it and enter your response in the text box at the bottom.
• To delete a message, touch and hold to select it, then drag it to at the upper right.
• To adjust messaging options, touch Apps > Text Messaging > Menu > Messaging settings.

CREATE MESSAGES
Find it: Apps > Text Messaging > .
Enter the recipient and message. Touch Menu to insert smiley, Set priority, or Add subject.
To add an attachment, touch in the upper right corner.
SEND & RECEIVE MESSAGE ATTACHMENTS
To send a file in a message, open a new message and touch " in the upper right corner.
When you receive a message with an attachment, open the message and touch the file name to download it. Touch the name again to open it. Some file types can be converted to HTML for faster viewing, and your smartphone will show "Get HTML version."
While viewing the attachment, touch it to save it, share it, and more.
Tip: To send and receive large attachments faster, use a Wi-Fi connection (see "Wi-Fi networks" on page 44).

GMAIL
Tip: To set up a Gmail™ account on your smartphone, touch Menu > System settings > Accounts & sync > ADD ACCOUNT > Google.
To read and reply to messages on your Gmail account, touch Apps > Gmail.
Tip: For more information, touch Apps > Gmail > Menu > Help.

EMAIL
You can set up multiple email accounts on your smartphone.
Touch Menu > System settings > Accounts & sync > ADD ACCOUNT, then:
• Select Corporate for Microsoft® Exchange server work email accounts. Enter details from your IT administrator.
  Tip: You might need to enter your domain name and user name (like domain/username).
• Select Email for your personal email accounts. For account details, contact the account provider.
To read and reply to messages on your email accounts, touch Apps > Email.

QUICK RESPONSES
You can create and save frequently-used text phrases and email replies, and quickly insert them in email messages you write.
To create a quick response, touch Apps > Email > email account name > Quick responses > Create new. Enter your quick response text, and touch Save to save it.
To insert a quick response in an email message you’re composing, touch Menu > Insert quick response > quick response text.
Note: You can insert only the quick responses you create for a specific email account. If you have multiple email accounts, you’ll need to create quick responses for each account.
**INSTANT MESSAGES**

To send and receive instant messages, you can use Google Talk™.

*Find it:* Apps > Talk

*Tip:* You can also download an instant messaging app from Google Play™.

**VOICEMAIL**

When you have a new voicemail, 📞 appears in the status bar. Drag down the status bar and touch the New voicemail notification to listen to your voicemail message.

If you need to change your voicemail number, in the home screen touch Phone > Menu > Settings > Voicemail settings.

**WIRELESS EMERGENCY ALERTS**

Wireless Emergency Alerts, also known as CMAS or PLAN, is a U.S. national emergency alert system. Emergency alerts can pop up to tell you about a national or local crisis. After you close an alert, you can reopen it by touching Apps > Emergency Alerts.

*Tip:* Emergency alerts have a special sound and vibration that is two seconds long, followed by one second, then another one second.

To choose which types of alerts you receive, touch Apps > Emergency Alerts. The U.S. and local governments send these alerts through your service provider. You will always receive alerts for the area where you are, and you won’t receive alerts if you’re outside of the U.S.

For more, visit www.ctia.org/consumer_info/safety/
**TEXT ENTRY**

*keys when you need them*

**TOUCHSCREEN KEYPAD**

You can open a keypad on your screen by touching a text box.

Tip: To close the keypad without saving any text (for example, to select a different text box), touch Back.

**INPUT METHODS**

To select a text input method, touch Menu > System settings > Language & input > Default > Motorola Input or Swype.

**MOTOROLA INPUT**

Enter text a letter at a time. As you type, your smartphone suggests words from your dictionary and chosen language. The smartphone also automatically enters apostrophes in some words, like “don’t.”

To add a word to your dictionary, touch the word, then select + add to dictionary.

**SWYPE™**

Enter words with one continuous motion. Just drag your finger over the letters in the word.

Tips:
- To enter apostrophes in common words (like “I’ll”), drag through the n as though it was an apostrophe.
- To enter other punctuation, numbers, or symbols, touch Symbols.
- To correct a word, double-touch it (tap twice, quickly). Swype shows a small menu of other word options.
Swype might also show a menu if it can’t guess your word.

- If Swype doesn’t know a word, you can still touch the letter keys to enter it. Swype remembers, so next time you can just drag over the letters.

**Typing Tips**

<table>

<tr>
<td><strong>Delete</strong> character to left of cursor</td>
<td>Touch <strong>Delete</strong> (hold to delete more).</td>
</tr>
</tbody>
</table>

**Text Input Settings**

Find it: Menu > **System settings > Language & input**

- To change the language for your smartphone and touchscreen keypad, touch **Locale**.
- To change the default text input method, touch **Default** under **KEYBOARD & INPUT METHODS**.
- To change text input settings, touch next to **Motorola Input** or **Swype**.
SOCIAL NETWORKING
my life, your life

BROWSER ACCESS TO SOCIAL SITES
You can use the Browser to track your social networking accounts on sites like Facebook®, Twitter, and LinkedIn. If you don't have accounts on these sites, visit their websites to set them up.

SOCIAL NETWORKING APPS
Many social networks offer dedicated apps that you can install on your smartphone. You can also download social networking apps from the Google Play™ Store by touching Apps > Play Store.

SYNC ACCOUNTS WITH YOUR SMARTPHONE
When you log in to a social networking account on your smartphone, you may be prompted to sync account contacts, pictures, and status with your People app. You can accept or decline to sync. You can change your sync settings at any time by touching Menu > Settings in the social networking app.

TIPS & TRICKS
a few handy hints

GENERAL TIPS
- Screen brightness changes as your smartphone senses the current lighting conditions.
- To see recently dialed numbers, touch Phone > RECENT.
- To sleep/wake your smartphone, press the Power key.
- To set screen timeout, touch Menu > System settings > Display > Sleep.
- To search, touch Search . To voice search, touch and hold Search .
- To automate everyday tasks, touch Apps > Smart Actions.
- To see the most recent apps you've used, touch and hold Home .
- To change a shortcut in the favorites tray at the bottom of the home screen, touch and hold a shortcut, then drag it in or out of the favorites tray.
- To turn sound on/off, press and hold the Power key, then touch a sound setting.
- To turn airplane mode on/off, press and hold the Power key, then touch Airplane mode.
BATTERY LIFE

Your smartphone is like a small computer, giving you a lot of information and apps, at blazing fast speeds, with a touch display. Depending on what you use, that can take a lot of power.

To start getting the most out of your battery, touch Menu > System settings > Battery. This shows you what’s using the most battery power.

To save even more battery life between charges, try these:

- To help minimize battery use, touch Apps > Smart Actions. Check out the sample rules that enable battery savings: Nighttime Battery Saver, and Battery Extender.
- To turn off background data transfers, touch Menu > System settings > Data usage > Menu > Restrict background data.
- Turn off Wi-Fi and Bluetooth® power when not in use: Touch Menu > System settings, then touch the switch next to Wi-Fi or Bluetooth to turn them off.
- Reduce recording or watching videos, listening to music, or taking pictures.
- Remove widgets that stream information to your home screen, like news or weather.
- Reduce display brightness: Touch Menu > System settings > Display > Brightness > (dimmer setting).
- Reduce display timeout delay: Touch Menu > System settings > Display > Sleep > (shorter setting).
- Remove unused online accounts that you registered (“MANAGE ACCOUNTS” on page 52).
WEBTOP APPLICATION
smart mobile computing

QUICK START: WEBTOP
Release your smartphone’s true potential so you can get more done.
Just connect your smartphone to a Motorola Lapdock™, or to an HDTV or monitor, and you’re ready to go.
The webtop application and webtop-enabled accessories (sold separately) expand your smartphone onto any full-sized HDTV or monitor. It’s web browsing, email, and more with computer-like precision on a large, high-resolution screen. Add a full size USB or wireless keyboard and mouse for serious productivity.

CONNECT
The webtop application launches automatically when you connect your smartphone to a lapdock. The other webtop-enabled accessories prompt you to launch the webtop application.

- Motorola Lapdock™ 500 Pro includes a 14” display, full-sized keyboard, VGA output, and Ethernet connectivity.
- Motorola Lapdock™ 100 includes a 10.1” display, keyboard, and trackpad.
- The HD Dock or HD Station connects to an HDTV or monitor, and a keyboard and mouse. Connect your favorite speakers with a 3.5mm audio jack.
- Use the VGA Travel Adapter to project the webtop application onto a bigger screen.
- Use the HDMI® Cable to connect and run the webtop application on any HDTV or monitor.

To close the webtop application, disconnect your smartphone from the accessory.

CONTROLS
In the webtop application display:

- Access all your Android applications by clicking on the Apps button at the top right of the screen.
- Click on the right or left edges of the home screen to move between home screen panels.
- Click on the right and left edges of the apps screen to flip through pages of applications and widgets.

SMART TRANSITIONS FROM SMARTPHONE TO WEBTOP
When viewing a web page on your smartphone, you can switch to webtop mode to continue viewing the site on a bigger screen. In the desktop browser, click on Menu > Request desktop site to see the desktop version of the web page. When you open a new tab, the browser will attempt to load the desktop version of the website (if
available). When you are finished browsing, just undock—all of your browser tabs and history go with you on the smartphone.

**WEBTOP MODE SWITCH**

Downloaded applications will launch in their native size by default. You can run an application at a larger size by clicking on the system settings icon and selecting webtop mode. The application may stop running while switching modes. Simply relaunch it.

**DIGITAL LIVING**

*connect and enjoy*

**HD VIEWING**

You can create your own HD videos (see "HD VIDEOS" on page 33) to view on your wide screen HDTV or monitor.

1. Connect a micro HDMI® cable (sold separately) from the micro HDMI port on your smartphone (see “YOUR SMARTPHONE” on page 2) to an HDMI port on the HDTV or monitor.

2. Adjust the viewable area on the HDTV or monitor by touching Menu > System settings > Display > Overscan.

**MIRROR MODE**

Connect your smartphone to your HDTV, monitor, or projector so you can view and interact with your smartphone on the big screen. Show off your photos, videos, and downloaded movies. Enjoy the big screen for gaming, movies, the web, and more. Just connect your smartphone to an HDTV or monitor using a micro HDMI® cable (sold separately). Everything you see on your display will appear on the big screen as well.
PHOTOS & VIDEOS
see it, capture it, share it!

PHOTOS
TAKE & SHARE PHOTOS
Find it: Apps > Camera
Tip: When the smartphone is locked, touch ☰ and flick to Camera.

Note: Photos are stored in your smartphone’s internal memory, unless you switch it to a microSD memory card. Photo resolution can be set to 8MP or Widescreen (6MP).

Tip: Press the volume keys to zoom in and out on the viewfinder image.

To take the photo, touch ☰.
Your smartphone stores the photo, and shows a thumbnail image in the corner of the screen. To see the photo you just took, touch the thumbnail. Then:

• To set the photo as a wallpaper or contact photo, touch ☰ > Set as.
• To share the photo in a message or post it online, touch ☰. For more info on sharing your photos, see “SHARE PHOTOS & VIDEOS” on page 35.
• To upload the photo to an online photo album, touch ☰ > Quick upload.
• To print the photo, touch ☰ > Print (see “MOTOPRINT” on page 46).
• To delete the photo, touch ☰ > Delete.
## CAMERA SETTINGS
Drag the tab in the lower-left corner of the viewfinder screen or touch Menu ( ) to adjust camera settings:

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Settings** | - Widescreen (6MP or 8MP photo resolution)  
- Video Resolution (1080p, 720p, DVD, VGA, or QVGA)  
- Volume Key Function (use volume keys to zoom)  
- Geo-tag (auto location information)  
- Video Stabilization (reduce shakiness during video capture)  
- Storage Location (smartphone or microSD memory card)  
- Shutter Tone |
| **Effects** | Set a photo effect: Normal, Black and White, Negative, and more. |
| **Scenes** | Set the type of photo you want to take: Auto, Portrait, Landscape, Sport, and more. |
| **Modes** | Set to Single shot, Panorama, Multi-shot, or Timer. |
| **Exposure** | Select an exposure setting. |
| **Flash** | Set Flash On, Flash Off, or Auto Flash. |
**VIDEOS**

**RECORD & SHARE VIDEOS**

Find it: Apps > Camera, then touch 🎥 to switch to camcorder.

To record a video, touch 🎥. To stop the video recording, touch 🎥 again.

Your smartphone stores the video, and shows a thumbnail image of the video in the corner of the screen.

Geo-Tag Location

Record video.

Switch between front & back cameras.

HD videos

You can capture HD-quality videos to watch on an HDTV or monitor.

To record an HD-quality video, be sure to select the correct Video resolution. From the active camcorder viewfinder screen, touch Menu > Video Resolution > HD+ (1080p) or High Definition (720p).

To enhance the video quality, touch Menu > or .

To see the video you just took, touch the thumbnail. Then:

- To play the video, touch 🎥.
- To share the video in a message or post it online, touch 🎥. For more info on sharing your video, see “SHARE PHOTOS & VIDEOS” on page 35.
- To upload the video to an online album, touch 🎥 > Quick upload.
- To delete the video, touch 🎥 > Delete.

To record a video, touch 🎥. To stop the video recording, touch 🎥 again.

Watch your last video.

Adjust camcorder settings.

Zoom in/out.

Switch to camera.

HD VIDEOS

You can capture HD-quality videos to watch on an HDTV or monitor.

To record an HD-quality video, be sure to select the correct Video resolution. From the active camcorder viewfinder screen, touch Menu > Video Resolution > HD+ (1080p) or High Definition (720p).

To enhance the video quality, touch Menu > or .
**CAMCORDER SETTINGS**

Drag the tab in the lower-left corner of the viewfinder screen (or touch Menu) to adjust camcorder settings:

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Settings** | - Widescreen (6MP or 8MP photo resolution)  
- Video Resolution (1080p, 720p, DVD, VGA, or QVGA)  
- Volume Key Function (use volume keys to zoom)  
- Geo-tag (auto location information)  
- Video Stabilization (reduce shakiness during video capture)  
- Storage Location (smartphone or microSD memory card)  
- Shutter Tone |
| **Effects** | Set a video effect: Normal, Black and White, Negative, and more. |
| **Audio Scenes** | Set sound recording options: Stereo, Wind Reduction, Concert, Balanced, or Front Facing. |

**Options**

- **Modes**
  - Set to Normal video, Video Message, or Time Lapse.
- **Exposure**
  - Select an exposure setting.
- **Light**
  - Set Light On or Light Off.
**VIEW PHOTOS & VIDEOS**

*Find it: Apps > My Gallery*

View all of your photos and your friends’ photos/videos from different media sites, like Facebook®®, Flickr, Picasa™, PhotoBucket, and YouTube™. You can add comments to others’ photos, and see comments that others have posted.

**Note:** To see the controls when a video is playing, touch the display.

---

**SET UP MEDIA ACCOUNTS**

You need to add your media accounts to the smartphone to view your online albums. If you don’t have accounts on these sites, visit their websites to set them up.

To add an account:

*Find it: Menu > System settings > Accounts & sync > ADD ACCOUNT*

Add an account by touching it. Enter your user name and password, then follow the prompts to set up the account.

Personal photo and video albums on your media accounts are automatically added to My Gallery. You can view your online albums, and upload photos and videos to them.

---

**SHARE PHOTOS & VIDEOS**

*Find it: Apps > My Gallery > photo or video*

Touch , then choose how you want to share—like Bluetooth, Email, Text Messaging, or an online album.

**MANAGE PHOTOS & VIDEOS**

*Find it: Apps > My Gallery > photo or video*

Touch , then select an option from Edit, Delete, Quick upload, Set as, Add to album, and more.

**Tip:** To copy photos to/from a computer, go to “USB CONNECTION” on page 52.
**EDIT PHOTOS & VIDEOS**

*Find it:* Apps > My Gallery > photo or video

Touch > Edit. You can choose advanced editing features to resize, crop, or change the color. To undo a change, touch <<=. When you’re finished, touch SAVE.

**SCREEN CAPTURE**

Sometimes a picture speaks louder than words. Share a screen capture of your favorite playlist, or your new high score. Forward a screen capture of a friend’s contact information. If you can see it on your smartphone, you can share it with your friends.

To capture your phone’s screen image, press and hold both the Power key and down volume key for three seconds, or until you hear the camera shutter click.

To see the screen image, touch Apps > My Gallery > My library.

**YOUTUBE™**

Share videos with YouTube users everywhere. You don’t need a YouTube account to browse and view videos.

*Find it:* Apps > YouTube

*Note:* If you want a YouTube account, go to www.youtube.com. To create an account or sign in, touch ACCOUNT.

**MUSIC**

when music is what you need...

**QUICK START: MUSIC**

Keep your music with you!

*Find it:* Apps > My Music > My library

To randomly play all of the songs in a playlist, touch ▲ > ▼.
**Tip:** When a song is playing, you can add it to a playlist by touching Menu > Add to playlist.

**Tip:** To listen to music during a flight, turn off all your network and wireless connections: Press and hold the Power key, then touch Airplane mode.

**SET UP MUSIC**

**WHAT MUSIC TRANSFER TOOLS DO I NEED?**

_Note:_ Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your legal and safety information.

To put music on your computer and then load it on your smartphone, you need:

- Microsoft® Windows® computer or Apple™ Macintosh™ computer.
- USB data cable.

Your smartphone supports a removable microSD memory card up to 32GB capacity. To install a microSD card, go to “ASSEMBLE & CHARGE” on page 3.

**Tip:** To see the available memory on a microSD card, from the home screen touch Menu > System settings > Storage.

**WHAT AUDIO FILE FORMATS CAN I PLAY?**

Your smartphone can play many types of files: AAC, AAC+, AAC+ Enhanced, AMR NB, AMR WB, MP3, WAV, WMA v9, and MIDI.

**WHAT HEADPHONES CAN I USE?**

Your smartphone has a 3.5mm headset jack for wired stereo listening. You can go wireless with Bluetooth® stereo headphones or speakers (see “BLUETOOTH® HANDSFREE DEVICES” on page 45).

**GET MUSIC**

**TRANSFER**

Transfer music from your computer to your smartphone using a USB cable connection. See “USB CONNECTION” on page 52 to learn how.

**BUY**

Buy MP3 music files that you can install and play on your smartphone.

Find it: Apps > My Music > Music store

**Tip:** You need to have a data connection to the Verizon network to do this (a Wi-Fi connection won’t work).

WEB
surf the web with your smartphone

QUICK START: BROWSER
Find it: Browser

Tip: To zoom in, touch the display with two fingers, then move them apart.

CONNECT
Your smartphone uses the mobile phone network (over the air) or a Wi-Fi connection to automatically access the web.

Note: Surfing the web or downloading data over the mobile phone network uses your monthly data subscription allowance.

If you want to use a Wi-Fi network for Internet access, see “WI-FI NETWORKS” on page 44.

Note: If you can’t connect, contact Verizon Wireless.

DOWNLOADS
To download files in your browser, touch a file link or touch and hold a picture to choose Save image.

To see the files you downloaded, touch Apps > Downloads. Touch and hold an item to open it, see details, or remove it from the list.

You can download “APPS & UPDATES” on page 13.

## PERSONALIZE

*add your personal touch*

## WIDGETS

### ADD WIDGETS

Fill your home screen with widgets—make it yours.

Touch Apps 📲 > Widgets, touch and hold a widget, then drag it to a spot on the home screen panels.

**Tip:** Flick left to see more widgets.

### SET UP WIDGETS

You can customize some widgets. Touch a widget to open it, then touch Menu 📋.

Your home screen may already have these widgets:

- **Favorite contacts:** Quickly call, text, or email your favorite contacts. To add people to your Favorites list, see "FAVORITES" on page 21.
- **Calendar:** Sync your calendars and review upcoming events at a glance with the scrollable calendar widget. To add calendar events, see "CALENDAR" on page 47.
- **My music:** Set this widget to an artist, album, song, playlist, genre, or just touch Menu 📋 > Shuffle all. There’s more about "MUSIC" on page 36.
- **Weather:** See weather reports for your current location, and for any other locations you specify.
SHORTCUTS
To add app shortcuts to the home screen, touch Apps > Apps > Apps, touch and hold an app, then drag it to a spot on the home screen panels.

Tip: To change a shortcut in the favorites tray at the bottom of the home screen, touch and hold a shortcut, then drag it in or out of the favorites tray.

RINGTONES
• To personalize your ringtones, touch Menu > System settings > Sound > Phone ringtone or Default notification.
• To make your smartphone ring and vibrate, touch Menu > System settings > Sound > Vibrate and ring.
• To silence your smartphone and make it vibrate for incoming calls, touch Menu > System settings > Sound > Silent mode > Vibrate.

Tip: In your home screen, press the volume down key until the screen shows vibrate or silent.
• To set a song as a ringtone, touch Apps > Apps > Apps > My Music and play the song, then touch Menu > System settings > Sound > Use as ringtone.

Note: To choose from thousands more songs, visit verizonwireless.com/ringtones.

WALLPAPER
To apply a new wallpaper, touch and hold an empty spot on your home screen, then choose a wallpaper image from Backup Assistant Plus, Live wallpapers, My Gallery, or Wallpapers.

SOUNDS
• To set volume for ringtones, media, and alarms, touch Menu > System settings > Sound > Volumes.
• To play dial pad tones, touch Menu > System settings > Sound > Dial pad touch tones.
• To play sounds for screen selections, touch Menu > System settings > Sound > Touch sounds.
• To customize the sound settings for media and videos, touch Menu > System settings > Sound > Speaker (internal) or Wired stereo devices (connected external speakers).

DISPLAY SETTINGS
• To set display brightness, touch Menu > System settings > Display > Brightness.
• To set orientation, touch Menu > System settings > Display > Auto-rotate screen.
• To set the font size for menus and settings, touch Menu > System settings > Display > Font size.
DATE & TIME
Set date, time, time zone, and formats:
Find it: Menu > System settings > Date & time

LANGUAGE & REGION
Set your menu language and region:
Find it: Menu > System settings > Language & input > Locale

LOCATION
where you are, where you’re going

GOOGLE MAPS™
Find it: Apps > Maps

Note: The map image you see may be a little different.
Google Maps offers powerful, user-friendly mapping technology and local business information—including
business locations, contact information, and driving directions.

For help, touch Menu > Help.

Tip: Want to know what's in your immediate area? Try Google Local™. Touch Apps > Maps, touch the Maps view control in the upper-left, then touch Local to see listings for restaurants, cafes, bars, and more based on your current location.

**GOOGLE MAPS NAVIGATION BETA™**

Google Maps Navigation Beta is a complete GPS navigation system with voice guidance that shows you the way.

Find it: Apps > Maps > Navigation

Follow the prompts to speak or type your destination.

For more information, go to www.google.com/mobile/navigation.

**GOOGLE LATITUDE™**

See where your friends and family are on Google Maps. Plan to meet up, check that your parents got home safely, or just stay in touch.

Don’t worry, your location is not shared unless you agree to it. You need to join Google Latitude, and then invite your friends to view your location or accept their invitations.

To get started, touch Apps > Maps > Join Latitude. Then:

- To start Google Latitude, touch Apps > Maps > Latitude.
- To add friends, touch FRIENDS LIST > .
- To remove friends, touch FRIENDS LIST, touch a friend in your list, then touch Remove this friend.
- To turn off Google Latitude, touch your Latitude name tag in map view, then touch Edit privacy settings > Sign out of Latitude.
Wireless

Lose the wires

Quick start: Wireless

Connect your smartphone to fast Wi-Fi networks or Bluetooth® devices.

To connect, touch Menu > System settings > Wi-Fi or Bluetooth.

Wi-Fi networks

Turn Wi-Fi power on or off

Touch Menu > System settings, then touch the Wi-Fi power switch to turn it on or off.

Note: To extend battery life, turn off Wi-Fi power when not in use.

Wi-Fi search & connect

When Wi-Fi is on, the Wi-Fi in range indicator appears in the status bar when a network is available. Drag down the status bar and touch the Wi-Fi networks available notification to select and connect to a network.

To search for a network when Wi-Fi is off:

1. Touch Menu > System settings > Wi-Fi.
2. Touch the Wi-Fi power switch to turn it on and scan. Your smartphone lists the networks it finds within range.
3. Touch a network to connect. If necessary, enter Network SSID, Security, and Password, and touch Connect.

When your smartphone is connected to the network, the Wi-Fi connected indicator appears in the status bar.
**Tip:** When you are in range and Wi-Fi power is on, you will automatically reconnect to available networks you’ve connected to before.

**Wi-Fi Hotspot**
You can make your smartphone a Wi-Fi hotspot to provide portable, convenient Internet access to other Wi-Fi enabled devices.

**Caution:** This application significantly impacts battery life. You may want to run this application with the charger connected.

**Note:** You need to subscribe to Wi-Fi hotspot service to use this feature. Contact Verizon Wireless for details.

To set up your smartphone as a Wi-Fi hotspot:

1. Touch Menu > System settings > Tethering & Mobile Hotspot > Mobile Hotspot to turn on the hotspot.
2. Touch Mobile Hotspot settings > Configure Mobile Hotspot to change hotspot security and configuration settings:
   - **Network SSID:** Enter a unique name for your hotspot and touch Next.
   - **Security:** Select the type of security you want: WEP, WPA, or WPA2. Enter a unique password. Other users can access your Wi-Fi hotspot only if they enter the correct password.
3. Touch Save when the settings are complete.

When your Wi-Fi hotspot is active, other Wi-Fi enabled devices can connect by entering your hotspot’s SSID, selecting a Security type, and entering the correct Password.

**Wi-Fi Modes**
For those who like to get a bit more technical, your smartphone supports the following Wi-Fi modes: 802.11 b, g, n.

**Bluetooth® Handsfree Devices**

**Turn Bluetooth Power On or Off**
Touch Menu > System settings, then touch the Bluetooth power switch to turn it ON or OFF.

**Note:** To extend battery life, turn off Bluetooth power when not in use.
CONNECT NEW BLUETOOTH DEVICES
Note: This feature requires an optional accessory.
To connect with a new Bluetooth headset or other device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.
1 Make sure the Bluetooth device you are pairing with is in discoverable mode.
   Note: Refer to the guide that came with the Bluetooth device for details.
2 Touch Menu > System settings > Bluetooth.
3 Touch the Bluetooth power switch to turn it on and scan. If Bluetooth power is already on, touch SEARCH FOR DEVICES.
4 Touch a device to connect.
5 If necessary, touch OK, or enter the device passkey (like 0000) to connect to the device. When the device is connected, the Bluetooth connected indicator appears in the status bar.
   Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.
RECONNECT DEVICES
To automatically reconnect your smartphone with a paired device, simply turn on the device.
To manually reconnect your smartphone with a paired device, touch the device name in the AVAILABLE DEVICES list.
DISCONNECT DEVICES
To automatically disconnect your smartphone from a paired device, simply turn off the device.
To manually disconnect your smartphone from a paired device, touch the device name in the devices list, then touch OK.
CHANGE DEVICE NAME
Touch Menu > System settings > Bluetooth, turn Bluetooth power on, then touch Menu > Rename phone. Enter a name and touch OK.
MOTOPRINT
Print email, documents, pictures, and contacts directly to shared printers on a Wi-Fi network—no printer drivers necessary. MOTOPRINT automatically discovers networked printers for you. You can even save your favorite printers and geo-tag their location for future use.
In the Email, Quickoffice, or My Gallery apps, open what you want to print and touch Menu > Print > Print with MotoPrint. Choose your printer, or choose Find printers (home) or advanced search options (work).

stay on top of things

CALENDAR
Managing your schedule has never been easier. The Calendar app automatically shows calendar events from your web-based Google™ account, and syncs events that you enter from your smartphone or web browser.

Find it: Apps > Calendar
You can view your calendar in different ways: Touch the date, then touch Day, Week, Month, or Agenda. Touch an event to see more details.

Tip: To add a calendar widget to your home screen, touch Apps > Widgets, touch and hold Calendar, then drag it to a spot on the home screen.

ADD CALENDAR EVENTS
From any view, touch Menu > New event. Enter the event start time and other details. You can even set a reminder so you don’t forget about the event. (When you set the reminder time to 0 minutes, it plays at the event start time.)

Tip: Reminders will play only if you’ve selected a notification ringtone (see "RINGTONES" on page 41). When you finish entering event details, touch Save.

MANAGE CALENDAR EVENTS
To edit an event, touch and hold it, then touch Edit event. When you’re done, touch Save.
To delete an event, touch and hold it, then touch Delete event.
To go to today, touch .

TASKS
Find it: Apps > Tasks
To add a task, touch .
From the tasks main screen, touch All tasks to view your tasks by due date, priority, and more.

Tip: To add a tasks widget to your home screen, touch Apps > Widgets, touch and hold Task, then drag it to a spot on the home screen panels.

CALCULATOR
Find it: Apps > Calculator
To switch between basic and advanced functions, touch Menu > Advanced panel or Basic panel. To clear history, touch Menu > Clear history.
**ALARM CLOCK**

*Find it:* Apps ➤ Alarm & Timer

To turn on an alarm, touch the check box.

When an alarm sounds, select **Dismiss** to turn it off or touch the screen to snooze for five minutes.

To add an alarm, touch ➤ , then enter alarm details.

To enable or disable an alarm, touch the check box.

**ACCESSIBILITY**

See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier.

*Note:* For general information, accessories, and more, visit www.motorola.com/accessibility.

**VOICE RECOGNITION**

Use your voice—just touch and speak.

- **Dialing and commands:** Touch Apps ➤ Voice Commands. To dial, say “Call” and then a contact name or phone number. Or, say a command from the list shown, like “Send Message” or “Go To”.

- **Search:** Touch and hold Search ( ), then say what you want to search for, like “Motorola accessories.”

- **Text entry:** Touch a text entry field to open the touchscreen keypad. Touch 🖥️ , then say what you want to type.

*Tip:* Speak naturally, but clearly. Use the microphone in a similar way to a speakerphone, so no need to shout or hold the smartphone close to your mouth.

To change your voice settings, see “VOICE SETTINGS” on page 49.

**TALKBACK (VOICE READOUTS)**

Your navigation and selections, read out loud.

To turn on TalkBack voice readouts, touch Menu ➤ System settings ➤ Accessibility ➤ TalkBack, then touch the power switch to turn it 🔄️ ➤ ON ➤ 🔄️.

To use TalkBack voice readouts:

- **Menus and screens:** In menus and screens, touch an item to select or open it. The item is read out loud, or your action is described.

- **Dialer & text entry:** As you type, each number or letter is read out loud.

*Tip:* Navigate through your apps and menus to hear how TalkBack voice readouts work on your smartphone.

To change TalkBack settings, touch Menu ➤ System settings ➤ Accessibility ➤ TalkBack ➤ SETTINGS.
CALLER ID
When you want to hear who’s calling:

- **Read out loud**: Have your caller announced—touch Phone > Menu > Settings > Caller ID Readout.
- **Ringtones**: Assign a unique ringtone to a contact—touch People, touch a contact, then touch Menu > Set ringtone.

VOICE SETTINGS
Personalize your voice settings:

- **Voice search**: Touch Menu > System settings > Language & input > Voice Search. From here, you can set options like language, personalized voice recognition, and censorship.
- **Voice typing**: Touch Menu > System settings > Language & input > Language & input, then touch next to Google voice typing. From here, you can select input language and block offensive words.
- **Text-to-speech**: Touch Menu > System settings > Language & input > Text-to-speech output. From here, you can set speed options and listen to a spoken text example.

VOLUME & VIBRATE
Choose volume and vibrate settings that work for you. Touch Menu > System settings > Sound.

- **Volume**: Touch Volumes and use the sliders.
- **Vibrate**: Touch Vibrate and ring to feel your smartphone ring.

ZOOM
Get a closer look. To zoom in, touch the screen with two fingers and then slide them apart. To zoom out, slide your fingers together.

DISPLAY BRIGHTNESS
Set a brightness level that works for you. Touch Menu > System settings > Display > Brightness > Adjust brightness level. Make sure that Automatic brightness is unchecked so you can set your own level.

TOUCHSCREEN & KEYS
All these touch features are great, and sometimes it’s nice to hear or feel your touches too. Touch Menu > System settings > Sound:

- **Touchscreen**: To hear screen touches (click), select Touch sounds.
- **Keys**: To feel key touches (vibrate), select Vibrate on touch.
- **Screen lock**: To hear when you lock/unlock the screen (click), select Screen lock sound.

MESSAGES
From a simple text message to IM, email, and more. Create, send, and receive them all on your smartphone.
And to make text entry even easier, you can use features like auto-correct, auto-punctuate, and auto-capitalization—touch Menu > System settings > Language & input, then touch next to Motorola input. Of course if you don’t want to type at all, then use your voice—touch on the touchscreen keypad.

**HEARING AIDS**

To help get a clear sound when using a hearing aid or cochlear implant, your smartphone may have been rated for use with hearing aids. If your smartphone’s box has “Rated for Hearing Aids” printed on it, then please read the following guidance.

**Note:** Ratings are not a guarantee of compatibility. See “Hearing Aid Compatibility with Mobile Phones” in your legal and safety information. You may also want to consult your hearing health professional, who should be able to help you get the best results.

- **Settings:** Touch > Phone > Menu > Settings > HAC Mode Settings to turn hearing aid compatibility mode on or off. HAC mode optimizes your smartphone for use with a hearing aid.
- **Call volume:** During a call, press the side volume keys to set a call volume that works for you.
- **Position:** During a call, hold the smartphone to your ear as normal, and then rotate/move it to get the best position for speaking and listening.

**TTY**

You can use your smartphone in TTY mode with standard teletype machines. Touch > Phone > Menu > Settings > TTY mode and select the mode you need:

- **TTY Full:** Type and read text on your TTY device.
- **TTY HCO:** Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your smartphone’s speaker.
- **TTY VCO:** Voice-Carry-Over—speak into your smartphone and read text replies on your TTY device.

**Note:** You’ll need a cable/adapter to connect your TTY device to the headset jack on your smartphone. Refer to your TTY device guide for mode and usage information.
**APPS**
Want more? No problem. Google Play™ provides access to hundreds of thousands of apps, and many provide useful accessibility features.

*Find it:* Apps > Play Store

Select a category or touch Search to find the app you want.

*Tip:* Choose your apps carefully, from trusted sites, like Play Store, as some may impact your smartphone’s performance.

**MEMORY CARD & FILE MANAGEMENT**

*stay in control*

**Memory card & file management**

Your photos, videos, and other files are automatically stored in your smartphone’s internal memory. You can set individual applications (camera, camcorder, etc.) to store files on a microSD memory card. To install a microSD card, go to “ASSEMBLE & CHARGE” on page 3.

*Tip:* To move media from internal memory to a microSD card, touch Menu > System settings > Storage > Manage internal storage.

**DELETE OR SHARE FILES ON YOUR SMARTPHONE**

*Find it:* Apps > Files > Device storage or SD card

Touch a file or folder to open, then touch and hold a file to open icons for options at the bottom (touch and hold an icon to see its label).

**REMOVE OR ERASE A MICROSD CARD**

*Note:* Do not remove a microSD card while your smartphone is using it or writing files on it.

Before you remove or erase a microSD card you need to unmount it. Touch Menu > System settings > Storage > Unmount SD card.

---

Management 51
To erase a microSD card, touch Menu > System settings > Storage > Erase SD card.

Warning: All data on the microSD card will be deleted.

USB CONNECTION
You can connect your smartphone to a computer with a USB cable.

Note: The first time you use a USB connection, your computer may indicate that drivers are being installed. Follow any prompts you see to complete the installation. This may take a few minutes.

1 With the home screen showing, connect a Motorola micro USB data cable from your smartphone’s micro USB port to a USB port on your computer. Your smartphone should show \( \) in the status bar.

Note: Make sure to connect the smartphone to a high power USB port. Typically, these are located directly on your computer.

2 Your smartphone and microSD memory card appear as two separate removable disks on your computer.

Drag and drop files between your computer and the smartphone or microSD card folders. When you’re done, use “Safely Remove Hardware” before disconnecting the USB cable.

Note: You can’t use files on the microSD card while your smartphone is connected to the computer.

MANAGE ACCOUNTS
To add email, social networking, or online media accounts on your smartphone, touch Menu > System settings > Accounts & sync > ADD ACCOUNT.

Add an account by touching it. Enter your user name and password, then follow the prompts to set up the account.

To edit an account, touch account name > Account settings.

To delete an account, touch account name > Menu > Remove account.

Note: You can’t delete the Backup Assistant\( ^{SM} \) Plus account you used or created when you set up your smartphone.

SMARTACTIONS™
Tired of doing the same tasks over and over again? Let the SMARTACTIONS app do them for you. You can create rules to do things, like automatically dim the touch screen when the battery is low, set your ringer to vibrate at work, and set a different wallpaper at home.

Find it: Apps > [Smart Actions]

For more information, open the SMARTACTIONS app and touch Menu > Help.
**DATA USAGE**

You can track the amount of data uploaded and downloaded by your smartphone, and set a limit on your monthly data usage to avoid overage charges from your service provider.

**Note:** Usage information is provided to help you manage your smartphone. This may not match the amounts charged by your service provider, as they’re not measured in the same way.

---

Find it: Menu > System settings > Data usage

The data usage screen shows information and settings for data transferred over your service provider’s mobile network.

**Tip:** You can also track Wi-Fi and ethernet data usage in separate tabs, by touching Menu > System settings > Data usage > Menu > Show Wi-Fi usage or Show Ethernet usage.

The data usage screen shows information and settings for data transferred over your service provider’s mobile network.

---

Turn on/off mobile data usage.

Activate mobile data limit.

Select data usage cycle.

Drag bars to set a data usage warning (orange) or limit (red).

Drag the white bars to see data usage for the specified time period.

Touch an app to see details & restrict background data.
SET A DATA USAGE WARNING
Touch Menu > System settings > Data usage, then drag the right side of the orange bar up/down to set the data warning level. You’ll receive a notification when your data usage reaches the specified level.

SET A DATA USAGE LIMIT
Touch Menu > System settings > Data usage > Set mobile data limit, then drag the right side of the red bar up/down to set the data usage limit. When you reach your data usage limit, mobile data is turned off automatically and many of your smartphone’s features won’t work correctly. You’ll receive a notification when mobile data is turned off.

RESTRICT BACKGROUND DATA USAGE BY APP
Some apps transfer data in the background, when you’re not using them. You can restrict background data usage for individual apps to help reduce your overall data usage. Touch Menu > System settings > Data usage, and scroll down to see which apps are transferring data over the mobile network. Touch an app, then touch Restrict background data.

RESTRICT ALL BACKGROUND DATA
You can restrict background data for all apps across all available networks (mobile, Wi-Fi, and Ethernet).

Find it: Menu > System settings > Data usage > System settings > Data usage > Restrict background data.
Caution: Restricting all background data can cause some features to stop working altogether.

WIRELESS MANAGER
Find it: Menu > System settings
• Wi-Fi and Bluetooth®: See “WIRELESS” on page 44.
• Airplane mode: Turn Airplane mode on to disable all your wireless connections—useful when flying.
  Tip: For faster access, press and hold the Power key, then touch Airplane mode.
  Note: When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region’s emergency number can still be made.
• Network settings: You should not need to change any network settings. Contact Verizon Wireless for help. To see settings, touch Menu > System settings > More... > Mobile networks.
SECURITY
help keep your smartphone safe

QUICK START: SECURITY
Find it: Menu > System settings > Security & Screen Lock

SCREEN SECURITY
- Encrypt the data stored on your phone or microSD memory card.

SCREEN LOCK
You can make the touchscreen lock when it goes to sleep. Touch Menu > System settings > Security & Screen Lock > Screen lock, then select the lock type:
- None: Turn off the screen lock.
- Slide: Flick to the right to unlock.
- Face Unlock: Look at your smartphone to unlock it.
- Pattern: Draw a pattern to unlock.
- PIN: Enter digits to unlock.
- Password: Enter letters, digits, or symbols to unlock.

Note: You can make emergency calls on a locked smartphone (see "EMERGENCY CALLS" on page 17). A locked smartphone still rings, but you need to unlock it to answer.

FACE UNLOCK
Use face recognition to unlock your smartphone.

Note: This feature is less secure than a pattern, PIN, or password.
To get started, touch Menu > System settings > Security & Screen Lock > Screen lock > Face Unlock > Set it up.
Follow the prompts and look at the front camera lens. When face capture is complete, choose a pattern or PIN (for backup and to change the lock setting).
To unlock the smartphone, flick 🔄 to the right and look at the front camera lens.

**PATTERN**
To set the lock pattern, touch Menu 📌 > System settings > Security & Screen Lock > Screen lock > Pattern.
Follow the instructions to draw your lock pattern.
When prompted, draw the pattern to unlock the smartphone.

**PIN**
To set a PIN, touch Menu 📌 > System settings > Security & Screen Lock > Screen lock > PIN.
Enter a numeric PIN, then confirm it.
When prompted, enter the PIN to unlock the smartphone.

**PASSWORD**
To set the password, touch Menu 📌 > System settings > Security & Screen Lock > Screen lock > Password.
Enter a password (up to eight characters), then confirm it.
When prompted, enter the password to unlock the smartphone.

**PERSONALIZE YOUR LOCK SCREEN**
To change your timeout, touch Menu 📌 > System settings > Display > Sleep. If you don’t touch the screen or press any keys for the amount of time you select, the screen locks automatically.

**LOCK & UNLOCK**
To lock your smartphone screen, do any one of these:
- Press the Power key.
- Let the screen time out (don’t press anything).
- Switch off the power.
To unlock your smartphone screen, press the Power key to wake the touchscreen display, then perform the unlock procedure required by the lock screen (slide, face unlock, pattern, PIN, or password).

**CAN’T UNLOCK YOUR SMARTPHONE?**
**Face unlock:** If your smartphone doesn’t recognize your face, you’ll be prompted to enter your backup pattern or PIN code to unlock it.
**Pattern:** If you make five unsuccessful attempts to enter your lock pattern, you can touch Forgot pattern and enter the Gmail user name and password you set up as your main Google account when you registered your device. You will then be able to create a new pattern and unlock your device.
**PIN or password:** If you forget your PIN or password, you can enter the Google Gmail user name and password you set up when you registered your device. You will then be able to create a new PIN or password and unlock your device.

If you don’t have a Google account on your smartphone, contact Verizon Wireless to have your device factory reset.

**Warning:** A factory reset will delete all data on your smartphone.

**Encrypt Your Smartphone**

**Caution:** If you forget your encryption key password, you cannot recover the data stored on your smartphone or microSD memory card. Encrypting your files can take an hour or more. Leave your smartphone plugged in, and be careful not to interrupt the process.

Encryption protects the files and data stored on your smartphone and microSD memory card, so that people cannot access them if your smartphone is stolen.

**Find it:** Menu > System settings > Security & Screen Lock > Data encryption

You can encrypt all the files you save on your smartphone and microSD memory card, encrypt all personal data on your smartphone, and encrypt your email, calendar, and/or contacts.

**SIM Lock**

**Caution:** If you enter an incorrect PIN code three times, your smartphone locks your SIM card and asks for your PIN unlock code. Contact Verizon Wireless for your PIN unlock code.

To set a SIM card PIN that you must enter when you turn on your smartphone:

**Find it:** Menu > System settings > Security & Screen Lock > Set up SIM card lock > Lock SIM card

To set your SIM PIN, enter a 4-digit code. To change your code, choose Change SIM PIN.

**Restore Your Smartphone**

If you reset or replace your smartphone, just log into your Google™ account to restore the contacts, events, and other details you synced with the account. To choose what syncs with the account, touch Menu > System settings > Accounts & sync, touch your Google account, and check things to sync. Please note that text messages, call logs, and items stored on your smartphone will not be restored. To restore your Google Play™ Store apps, see “MANAGE & RESTORE APPS” on page 13.
TROUBLESHOOTING
we’re here to help

CRASH RECOVERY
If you ever need to reboot your phone when the touchscreen is not responding, remove and re-insert the battery, then turn your phone back on.

RESET
If you want to clear your phone, or if you forget your unlock PIN or Password, you can reset your phone to factory settings and erase all of your data (if you forget your unlock Pattern, see “QUICK START: SECURITY” on page 55).

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

If your display is not locked, touch Menu → System settings → Privacy → Factory Data Reset → Reset Phone

If your display is locked, follow these steps:

1. Read through all of the following steps before you begin, so that you can be ready.

2. Turn off your phone.
   If your phone is not responding, press and hold both the Power key and the Volume Down key until your phone turns off (about 10 seconds).

3. When your phone is off, press and hold both volume keys together, then press the power key to turn on the phone.

4. When your phone shows the boot mode menu, press Volume Down to highlight “Recovery.”

5. Press Volume Up to start “Recovery.”
   Your phone reboots, then shows a green robot on the screen.

   Tip: If you activate the wrong prompt or run into problems, you can start over by pressing and holding both the Power key and the Volume Down key until your phone turns off (about 10 seconds).

   The recovery menu appears. Press the volume keys to scroll to the factory reset option, then press the Power key to activate it. Press the volume keys to scroll to the Yes confirmation, then press the Power key to confirm.

7. When the reset is complete, press the Power key to choose reboot from the recovery menu.
SERVICE & REPAIRS
If you have questions or need assistance, we’re here to help.
Go to www.motorola.com/repair (United States) or www.motorola.com/support (Canada), where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TDD United States for hearing impaired), or 1-800-461-4575 (Canada).
Battery Use & Safety

The following battery use and safety information applies to all Motorola mobile devices. If your mobile device uses a non-removable main battery (as stated in your product information), details related to handling and replacing your battery should be disregarded—the battery should only be replaced by a Motorola-approved service facility, and any attempt to remove or replace your battery, unless performed by a service representative, may damage the product and void your warranty.

Important: Handle and store batteries properly to avoid injury or damage. Most battery safety issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

**DON'Ts**
- Don’t disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don’t use tools, sharp objects, or excessive force to insert or remove the battery as this can damage the battery.
- Don’t allow the mobile device or battery to touch metal objects.
- Don’t place your mobile device or battery near a heat source.*
- Don’t dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.

**DOs**
- Do avoid leaving your mobile device in your car in high temperatures.*
- Do avoid dropping the mobile device or battery.* Dropping these items, especially on a hard surface, can potentially cause damage.
- Do contact your service provider or Motorola if your mobile device or battery has been damaged in any of the ways listed here.

**Note:** Always make sure that any battery, connector, and compartment covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your mobile device can resist damage from these conditions.

Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola’s warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers. To help you identify authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a “Motorola Original” hologram. If you see a message on your display such as Invalid Battery or Unable to Charge: take the following steps:

1. Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
2. If there is no hologram, the battery is not a Motorola battery;
3. If there is a hologram, replace the battery and try charging it again;
4. If the message remains, contact a Motorola authorized service center.

**Warning:** Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

**Proper and safe battery disposal and recycling:**
Proper battery disposal is not only important for safety, it benefits the environment. You can recycle your used batteries in many retail or service provider locations. Additional information on proper disposal and recycling can be found at www.motorola.com/recycling.

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

**Warning:** Never dispose of batteries in a fire because they may explode.

Battery Charging

**Notes for changing your product’s battery:**
- During charging, keep your battery and charger near room temperature for efficient battery charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

**Third Party Accessories**

Use of third party accessories, including but not limited to batteries, chargers, headsets, covers, cases, screen protectors and memory cards, may impact your mobile device’s performance. In some circumstances, third party accessories can be dangerous and may void
Driving Precautions

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction, and may be prohibited or restricted in certain areas—always obey the laws and regulations on the use of these products.

While driving, NEVER:
- Type, read, enter or review texts, emails, or any other written data.
- Surf the web.
- Input navigation information.
- Perform any other functions that divert your attention from driving.

While driving, ALWAYS:
- Keep your eyes on the road.
- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device before driving.
- Use voice-activated features (such as voice dial) and speaking features (such as audible directions), if available.
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
- End your call or other task if you cannot concentrate on driving.

Remember to follow the “Smart Practices While Driving” at www.motorola.com/callsmart (in English only).

Seizures, Blackouts & Eyestrain

To reduce eyestrain and avoid headaches, it is always a good idea to hold the screen a comfortable distance from your eyes, use in a well-lit area, and take frequent breaks. Some people may be susceptible to seizures or blackouts (even if they have never had one before) when exposed to flashing lights or light patterns, such as when playing video games, or watching videos with flashing-light effects.

Discontinue use and consult a physician if any of the following symptoms occur: seizures, blackouts, convolution, eye or muscle twitching, loss of awareness, or disorientation.

If you or someone in your family has experienced seizures or blackouts, please consult with your physician before using an application that produces flashing-light effects on your mobile device.

Caution About High Volume Usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:
- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can’t hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our website at http://direct.motorola.com/hellomoto/nss/AcousticSafety.asp (in English only).

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

Children

Keep your mobile device and its accessories away from small children. These products are not toys and may be hazardous to small children. For example:
- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Supervise access for older children. Similar to a computer, if an older child does use your mobile device, you may want to monitor their access to help prevent:
- Exposure to inappropriate apps or content.
- Improper use of apps or content.
- Loss of data.

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Seizures, Blackouts & Eyestrain

To reduce eyestrain and avoid headaches, it is always a good idea to hold the screen a comfortable distance from your eyes, use in a well-lit area, and take frequent breaks. Some people may be susceptible to seizures or blackouts (even if they have never had one before) when exposed to flashing lights or light patterns, such as when playing video games, or watching videos with flashing-light effects.

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.
Operational Warnings

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Areas

Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries, unless it is a radio product type especially qualified for use in such areas and certified as "Intrinsically Safe" (for example, Factory Mutual, CSA, or UL approved). In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td>☢</td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td>ℹ️</td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
<tr>
<td>☢️</td>
<td>Do not dispose of your battery or mobile device with your household waste. See “Recycling” for more information.</td>
</tr>
<tr>
<td>✒️</td>
<td>Do not use tools.</td>

<tr>
<td>🌐</td>
<td>For indoor use only.</td>
</tr>
<tr>
<td>🎧</td>
<td>Listening at full volume to music or voice through a headset may damage your hearing.</td>
</tr>
</tbody>
</table>

Radio Frequency (RF) Energy

Exposure to RF Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits.

Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:

- When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
- If you wear the mobile device on your body, ensure that the device is positioned at least 2.5 cm (1 inch) away from the body, and if you use an accessory case or holder, ensure it is free of any metal.

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or health care facilities.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.
Medical Devices
If you have a medical device, including an implantable medical device such as a pacemaker or defibrillator, consult your healthcare provider and the device manufacturer’s directions before using this mobile device.

Persons with implantable medical devices should observe the following precautions:
- **ALWAYS** keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- **DO NOT** carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Specific Absorption Rate (FCC & IC)
YOUR MOBILE DEVICE MEETS FCC AND IC LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC) and Industry Canada (IC). These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 1.6 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the FCC and IC guidelines for your device model are listed below:

<table>
<thead>
<tr>
<th>Type</th>
<th>SAR Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Head SAR</td>
<td>0.88 W/kg</td>
</tr>
<tr>
<td>Body-worn SAR</td>
<td>0.94 W/kg</td>
</tr>
</tbody>
</table>

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body. Additional information can be found at www.motorola.com/rfhealth.

FCC Notice to Users
The following statement applies to all products that bear the FCC logo and/or FCC ID on the product label.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. See 47 CFR Sec. 15.105(a). These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(a)(3).

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user’s authority to operate the equipment. See 47 CFR Sec. 15.21.

For products that support Wi-Fi 802.11a (as defined in product information): In the United States, do not use your device outdoors while connected to an 802.11a Wi-Fi network. The FCC prohibits such outdoor use since frequencies 5.15-5.25 GHz can cause interference with Mobile Satellite Services (MSS). Public Wi-Fi access points in this range are optimized for indoor use.

Industry Canada Notice to Users
This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This
device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.3. This Class B digital apparatus complies with Canadian ICES-003.

Software Notices

Warning against unlocking the bootloader or altering a product’s operating system software: Motorola strongly recommends against altering a product’s operating system, which includes unlocking the bootloader, rooting a device or running any operating software other than the approved versions issued by Motorola and its partners. Such alterations may permanently damage your product, cause your product to be unsafe and/or cause your product to malfunction. In such cases, neither the product nor any damage resulting therefrom will be covered by warranty.

Important FCC information: You must not make or enable any changes to the product that will impact its FCC grant of equipment authorization. The FCC grant is based on the product’s emission, modulation, and transmission characteristics, including: power levels, operating frequencies and bandwidths, SAR levels, duty-cycle, transmission modes (e.g., CDMA, GSM), and intended method of using the product (e.g., how the product is held or used in proximity to the body). A change to any of these factors will invalidate the FCC grant. It is illegal to operate a transmitting product without a valid grant.

Location Services

The following information is applicable to Motorola mobile devices that provide location based functionality. Location sources can include GPS, AGPS and Wi-Fi.

Your mobile device can use Global Positioning System (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device.

Your mobile device can also use Assisted Global Positioning System (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider’s network and therefore, airline, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.

Your mobile device can also use Wi-Fi signals to determine your approximate location, using information from known and available Wi-Fi networks.

Your Location

Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Devices enabled with location technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g., driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls

When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and might not work in your area. Therefore:

1. Always tell the emergency responder your location to the best of your ability; and
2. Remain on the phone for as long as the emergency responder instructs you.

Navigation

The following information is applicable to Motorola mobile devices that provide navigation features.

When using navigation features, note that mapping information, directions and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Privacy & Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

1. Monitor access—Keep your mobile device with you and do not leave it where others may have unmonitored access. Use your device’s security and lock features, where available.
2. Keep software up to date—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device’s security, install it as soon as possible.
3. Secure Personal Information—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.
Note: For information on how to backup or wipe data from your mobile device, go to www.motorola.com/support

- **Online accounts**—Some mobile devices provide a Motorola online account (such as MOTOBUR). Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- **Applications and updates**—Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your phone’s performance and/or have access to private information including account details, call data, location details and network resources.
- **Wireless**—For mobile devices with Wi-Fi features, only connect to trusted Wi-Fi networks. Also, when using your device as a hotspot (where available) use network security. These precautions will help prevent unauthorized access to your device.
- **Location-based information**—Mobile devices enabled with location based technologies such as GPS, AGPS or Wi-Fi, can transmit location-based information. See “Location Services” for more details.
- **Other information your device may transmit**—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. This information is used to help improve products and services offered by Motorola.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

**Use & Care**

To care for your Motorola mobile device, please observe the following:

- **liquids**—Don’t expose your mobile device to water, rain, extreme humidity, sweat, or other liquids.
- **drying**—Don’t try to dry your mobile device using a microwave oven, conventional oven, or dryer, as this may damage the mobile device.
- **extreme heat or cold**—Don’t store or use your mobile device in temperatures below -10°C (14°F) or above 60°C (140°F). Don’t recharge your mobile device in temperatures below 0°C (32°F) or above 45°C (113°F).
- **dust and dirt**—Don’t expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.
- **cleaning**—To clean your mobile device, use only a dry soft cloth. Don’t use alcohol or other cleaning solutions.
- **shock and vibration**—Don’t drop your mobile device.
- **protection**—To help protect your mobile device, always make sure that any battery, connector and compartment covers are closed and secure.

**Recycling**

**Mobile Devices & Accessories**

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at www.motorola.com/recycling.
Packaging & Product Guides
Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

California Perchlorate Label
Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:
Perchlorate Material – special handling may apply when the battery is recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate (in English only).

There is no special handling required by consumers.

Hearing Aid Compatibility with Mobile Phones
Hearing Aid Compatibility
Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has “Rated for Hearing Aids” printed on it, the following explanation applies.

When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model.

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Contact your service provider or Motorola for information on hearing aid compatibility. If you have questions about return or exchange policies, contact your service provider or phone retailer.

The ratings are not guarantees. Results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.) Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Software Copyright
Motorola products may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the limited, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Content Copyright
The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open Source Software Information
For instructions on how to obtain a copy of any source code being made publicly available by Motorola related to software used in this Motorola mobile device, you may send your request
in writing to the address below. Please make sure that the request includes the model number and the software version number.

MOTOROLA MOBILITY LLC
OSS Management
600 North US Hwy 45
Libertyville, IL 60048
USA

The Motorola website opensource.motorola.com (in English only) also contains information regarding Motorola's use of open source.

Motorola has created the opensource.motorola.com website to serve as a portal for interaction with the software community-at-large.

To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please go to Apps > Settings > About phone > Legal information > Open source licenses. In addition, the Motorola device may include self-contained applications that present supplemental notices for open source packages used in those applications.

Export Law Assurances
This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Product Registration
Online Product Registration:
www.motorola.com/us/productregistration (in English only)

Product registration is an important step toward enjoying your new Motorola product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola product you will need to provide a copy of your dated sales receipt to confirm warranty status.

Thank you for choosing a Motorola product.

Service & Repairs
If you have questions or need assistance, we're here to help.

Go to www.motorola.com/repair (United States) or www.motorola.com/support (Canada), where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).

How to Obtain Service or Other Information
1. Please access and review the online Customer Support section of Motorola's consumer website prior to requesting warranty service.
2. If the Product is still not functioning properly after making use of this resource, please contact the Warrantor listed at the Motorola website or the contact information for the corresponding location.
3. A representative of Motorola, or of a Motorola Authorized Repair Center, will help determine whether your Product requires service. You may be required to download, or otherwise obtain and accept software updates from Motorola or a Motorola Authorized Repair Center. You are responsible for any applicable carrier service fees incurred while obtaining the required downloads. Complying with the warranty process, repair instructions and accepting such software updates is required in order to receive additional warranty support.
4. If the software update does not fix the problem, you will receive instructions on how to ship the Product to a Motorola Authorized Repair Center or other entity.
5. To obtain warranty service, as permitted by applicable law, you are required to include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) your address and telephone number. In the event the Product is not covered by the Motorola Limited Warranty, Motorola will inform the consumer of the availability, price and other conditions applicable to the repair of the Product.

To obtain service or other information, please access and review the online Customer Support section of Motorola's consumer website at www.motorola.com.

Motorola Mobility LLC Limited Global Warranty Mobile Phones

Note: This Limited Warranty is not applicable in Quebec, Canada.

FOR CONSUMERS WHO ARE COVERED BY CONSUMER PROTECTION LAWS OR REGULATIONS IN THEIR COUNTRY OF PURCHASE OR, IF DIFFERENT, THEIR COUNTRY OF RESIDENCE, THE BENEFITS CONFERRED BY THIS LIMITED WARRANTY

Safety, Regulatory & Legal 67
**Safety, Regulatory & Legal**

**Who is Covered?**
This Limited Warranty extends only to the first consumer purchaser of the Product, and is not transferable.

**What Does this Limited Warranty Cover?**
Motorola Mobility LLC or its subsidiaries’ warranty obligations are limited to the terms and conditions set forth herein. Subject to the exclusions contained below, Motorola Mobility LLC or its subsidiaries (“Motorola”) warrant this Mobile Phone, and any in-box accessories which accompany such Mobile Phone (“Product”) against defects in materials and workmanship, under normal consumer use, for a period of ONE (1) YEAR from the date of retail purchase by the original end-user purchaser, or the period of time required by the laws of the country where the Product is purchased, whichever is longer (“Warranty Period”). Repairs made under this Limited Warranty are covered for the balance of the original Warranty Period, or 90 days from the date of service, whichever is longer. Any upgrade to the original product will be covered only for the duration of the original Warranty Period.

This Limited Warranty is only available in the country where the Product was purchased. Motorola may provide service outside the country of purchase, to the extent that it is possible and under the terms and conditions of the country of purchase. This Limited Warranty applies only to new Products which are a) manufactured by or for Motorola as identified by the "Motorola" trademark, trade name, or logo legally affixed to them; b) purchased by consumers from an authorized reseller or distributor of Motorola Products; and c) accompanied by this written Limited Warranty.

**What Will Motorola Do?**
If a covered defect or damage arises and a valid warranty claim is received within the applicable Warranty Period, Motorola, at its sole option, unless otherwise required by applicable law, will either (1) repair, at no charge, the defect or damage using new, used or reconditioned/refurbished functionally equivalent replacement parts; or (2) exchange the Product with a replacement Product that is new or which has been reconditioned/refurbished or otherwise remanufactured from new or used parts and is functionally equivalent to the original Product; or (3) refund the purchase price of any Products covered by the terms and conditions of this Limited Warranty. Products, parts and supporting documentation provided to Motorola as part of the warranty process, shall become the property of Motorola, and may not be returned. When a replacement or refund is given, the Product for which the replacement or refund is provided must be returned to Motorola and shall become the property of Motorola.

**Exclusions (Products and Accessories)**
This warranty does not apply to: (a) Consumable parts, such as batteries or protective coatings designed to diminish over time unless failure has occurred due to a defect in materials or workmanship. As with all batteries, the maximum capacity of the battery will decrease with time and use; this is not a defect. Only defective batteries and batteries that leak are covered by this warranty. (b) Cosmetic damage, including but not limited to scratches, dents, cracks or other cosmetic damage. (c) Damage caused by use with non-Motorola products. Defects or damage that result from the use of non-Motorola branded or certified Products, accessories or other peripheral equipment, including without limitation housings, parts, or software, are excluded from coverage. (d) Damage caused by accident, abuse, misuse, liquid contact, fire, earthquake or other external causes; including but not limited to: (i) improper usage or operation (e.g. operating the Product outside their permitted or intended uses as defined by Motorola, including but not limited to as set forth by Motorola in the Product’s User Manual, Quick Start Guide, Online Tutorials, and other documentation), improper storage (e.g. subjecting the Product to extreme temperatures), abuse or neglect (e.g. broken/bent/missing clips/fasteners/connectors), impact damage (e.g. dropping the Product), (ii) contact with liquids, water, rain, extreme humidity, heavy perspiration or other moisture, sand, food, dirt or similar substances (except for Products sold as resistant to such substances, but only to the extent the damage was not caused by incorrectly securing the phone’s protective elements or subjecting the Product to conditions beyond its stated specifications or limits); (iii) use of the Products for commercial rental purposes; or (iv) external causes or acts which are not the fault of Motorola, including but not limited to flood, fire, earthquake, tornado or other acts of God, are excluded from coverage. (e) Unauthorized Service or Modification. Defects or damage resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way, including but not limited to tampering with or altering the software, by someone other than Motorola, or its authorized service centers, are excluded from coverage. Notwithstanding the foregoing, any Product which has had its bootloader unlocked, or whose operating system has been altered, including any failed attempts to unlock the bootloader or alter such operating system, is not covered by this warranty, regardless of whether such modifications are authorized, approved, or otherwise sanctioned by Motorola.

**ARE IN ADDITION TO ALL RIGHTS AND REMEDIES CONVEYED BY SUCH CONSUMER PROTECTION LAWS AND REGULATIONS.**

**Who is Covered?**
This Limited Warranty extends only to the first consumer purchaser of the Product, and is not transferable.

**What Does this Limited Warranty Cover?**
Motorola Mobility LLC or its subsidiaries’ warranty obligations are limited to the terms and conditions set forth herein. Subject to the exclusions contained below, Motorola Mobility LLC or its subsidiaries (“Motorola”) warrant this Mobile Phone, and any in-box accessories which accompany such Mobile Phone (“Product”) against defects in materials and workmanship, under normal consumer use, for a period of ONE (1) YEAR from the date of retail purchase by the original end-user purchaser, or the period of time required by the laws of the country where the Product is purchased, whichever is longer (“Warranty Period”). Repairs made under this Limited Warranty are covered for the balance of the original Warranty Period, or 90 days from the date of service, whichever is longer. Any upgrade to the original product will be covered only for the duration of the original Warranty Period.

This Limited Warranty is only available in the country where the Product was purchased. Motorola may provide service outside the country of purchase, to the extent that it is possible and under the terms and conditions of the country of purchase. This Limited Warranty applies only to new Products which are a) manufactured by or for Motorola as identified by the “Motorola” trademark, trade name, or logo legally affixed to them; b) purchased by consumers from an authorized reseller or distributor of Motorola Products; and c) accompanied by this written Limited Warranty.

**What Will Motorola Do?**
If a covered defect or damage arises and a valid warranty claim is received within the applicable Warranty Period, Motorola, at its sole option, unless otherwise required by applicable law, will either (1) repair, at no charge, the defect or damage using new, used or reconditioned/refurbished functionally equivalent replacement parts; or (2) exchange the Product with a replacement Product that is new or which has been reconditioned/refurbished or otherwise remanufactured from new or used parts and is functionally equivalent to the original Product; or (3) refund the purchase price of any Products covered by the terms and conditions of this Limited Warranty. Products, parts and supporting documentation provided to Motorola as part of the warranty process, shall become the property of Motorola, and may not be returned. When a replacement or refund is given, the Product for which the replacement or refund is provided must be returned to Motorola and shall become the property of Motorola.

**Exclusions (Products and Accessories)**
This warranty does not apply to: (a) Consumable parts, such as batteries or protective coatings designed to diminish over time unless failure has occurred due to a defect in materials or workmanship. As with all batteries, the maximum capacity of the battery will decrease with time and use; this is not a defect. Only defective batteries and batteries that leak are covered by this warranty. (b) Cosmetic damage, including but not limited to scratches, dents, cracks or other cosmetic damage. (c) Damage caused by use with non-Motorola products. Defects or damage that result from the use of non-Motorola branded or certified Products, accessories or other peripheral equipment, including without limitation housings, parts, or software, are excluded from coverage. (d) Damage caused by accident, abuse, misuse, liquid contact, fire, earthquake or other external causes; including but not limited to: (i) improper usage or operation (e.g. operating the Product outside their permitted or intended uses as defined by Motorola, including but not limited to as set forth by Motorola in the Product’s User Manual, Quick Start Guide, Online Tutorials, and other documentation), improper storage (e.g. subjecting the Product to extreme temperatures), abuse or neglect (e.g. broken/bent/missing clips/fasteners/connectors), impact damage (e.g. dropping the Product), (ii) contact with liquids, water, rain, extreme humidity, heavy perspiration or other moisture, sand, food, dirt or similar substances (except for Products sold as resistant to such substances, but only to the extent the damage was not caused by incorrectly securing the phone’s protective elements or subjecting the Product to conditions beyond its stated specifications or limits); (iii) use of the Products for commercial rental purposes; or (iv) external causes or acts which are not the fault of Motorola, including but not limited to flood, fire, earthquake, tornado or other acts of God, are excluded from coverage. (e) Unauthorized Service or Modification. Defects or damage resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way, including but not limited to tampering with or altering the software, by someone other than Motorola, or its authorized service centers, are excluded from coverage. Notwithstanding the foregoing, any Product which has had its bootloader unlocked, or whose operating system has been altered, including any failed attempts to unlock the bootloader or alter such operating system, is not covered by this warranty, regardless of whether such modifications are authorized, approved, or otherwise sanctioned by Motorola.
A product or part that has been modified in any manner without the written permission of Motorola. Products that have been altered in any manner so as to prevent Motorola from determining whether such Products are covered under the terms of this Limited Warranty are excluded from coverage. The forgoing shall include but not be limited to: (i) serial numbers, date tags or other manufacturing coding that has been removed, altered or obliterated; (ii) mismatched or duplicated serial numbers, or (iii) broken seals or other evidence of tampering. Do not open the Product or attempt to repair the Product yourself; such conduct may cause damage that is not covered by this warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Products that have been modified in any manner without the written permission of Motorola.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided "AS-IS" and "AS AVAILABLE," "WITH ALL FAULTS" and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty.

Normal wear and tear or otherwise due to the normal aging of the Product.

Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

All software, including operating system software, third-party software, applications, and all other software of any kind.
