

Software update for the MOTOROLA XOOM™ with Wi-Fi

Introduction

This is a software update for MOTOROLA XOOM™ with Wi-Fi users who are currently using software versions 6.4.20 and 6.4.20.3. This new software package will update MOTOROLA XOOM™ tablets to software version 6.6.23 and provides many new features and performance improvements.

In addition to the Motorola software that will be updated, the release will also update the Google™ Android™ OS from version 3.1 to version 3.2 of Honeycomb.

For optimal performance, we encourage you to download and install this latest software update. For more information on your MOTOROLA XOOM™ with Wi-Fi, visit us at <http://www.motorola.com/myxoom>.

Who can use this release?

MOTOROLA XOOM users in Austria, Denmark, France, Germany, Italy, Netherlands, Norway, Spain, Sweden, Switzerland and the UK.

After downloading this release you will have access to the following new features:

- Improved Compatibility Mode - *Ability to switch to double pixel mode for selected applications. When selected, application sub-windows and drop down menus are also doubled. In addition, pixel doubling settings are saved for each application.*
- Rotation Acceleration - *Screen rotates faster when tablet is rotated.*
- Docking support – *automatically detect when device is docked and launch an application or docking profile.*
- QuickOffice™ - full version - *Provides support for editing of Microsoft® Office files and viewing of pdf files.*
- MOTOPRINT - *A printing application for your MOTOROLA XOOM. This application allows you to print content from your tablet to your printer over WiFi. You can print most types of content, including pictures, directly from your tablet.*
- Enhanced VPN support.
- Language support for Croatian, Hungarian and Romanian.
- Additional External keyboard layouts for Hebrew, Arabic, Russian, Spanish, Italian, Greek, Turkish & Polish.
- Citrix™ client
- 3LM™ enablers for remote management of the MOTOROLA XOOM devices in a corporate environment.

Instructions for installing the software

For a successful installation, we recommend installing this update when the battery in your tablet is at least 50% charged and you are connected to a Wi-Fi network.

If you have received a notification message for this update:

1. Select "Download".
2. After the software is downloaded, select "Install now".
3. After the software is installed, your tablet will re-start automatically.
4. Your tablet is now updated with 6.6.23 software.

If you have not received a notification message for this update:

1. Select the Settings icon in the apps menu.
2. Select "About tablet".
3. Select "System updates".
4. Select "Download".
5. After the software has been downloaded, select "Install".
6. After the software has been installed, your tablet will re-start.
7. Your tablet is now updated with 6.6.23 software.

If you have difficulty with this update, visit <http://www.motorola.com/myxoom>

Certain features, services and applications are network-dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. All features, functionality and other product specifications are subject to change without notice or obligation. Contact your service provider for details.
