

Software Update for AT&T Motorola ATRIX™ 4G v4.1.83*

Introduction

This is the v4.1.83 software update for the AT&T Motorola ATRIX™ 4G. This update includes several improvements to device performance.

Please use a Wi-Fi connection to download the update. To avoid large data charges, please remain connected in Wi-Fi until the download is complete.

For more information on your AT&T Motorola ATRIX™ 4G, visit <http://www.motorola.com/myatrix>.

Who Can Use This Release?

ALL AT&T Motorola ATRIX™ 4G users

Highlights

After downloading and installing the software, you will notice the following improvements:

Data Speed	Increased potential data speed.
Data Connection	Improvements to limit interruptions to data connection.
Screen	Improvements to prevent screen from freezing.
Email	Improved ability for users to receive email notifications so you know when you have a new message. Also, improvements were made so that you are now able to use the same email login to access both MOTOBLUR™ and YouTube.
Skype	Improvements to call audio function so it is easier for the person you called to hear you. Please note this application is not pre-loaded on the phone, but is available for download from the Android Market.
Wi-Fi	Increased functionality by enabling Yahoo Email to be sent over a Wi-Fi connection.
Display	Improved International Roaming Warning Message by simplifying user notification so that it only appears on the screen when you move to a new network.

Happenings Widget	Improved Happenings Widget to ensure that you receive the latest updates across the social networks you are connected to such as Facebook, MySpace, and Twitter.
Calling	Improvements were made to incoming and outgoing call functionality to ensure a more seamless experience.

Instructions for Installing Software

For a successful installation, we recommend installing these updates while the battery in your phone is at least 50% charged. Make sure you have an active SIM card installed in your phone.

If you have received a notification message for this update:

1. Select "Download".
2. After the software is downloaded, select "Install now".
3. After the software is installed, your phone will re-start automatically.
4. Your phone is now updated with v4.1.83 software.

If you have not received a notification message for this update:

1. Select the Settings icon in the main menu.
2. Select "About phone".
3. Select "System updates".
4. Select "Download".
5. After the software is downloaded, select "Install".
6. After the software is installed, your phone will re-start automatically.
7. Your phone is now updated with v4.1.83 software.

*Note: Menu->Settings->About phone-> System version

If you have difficulty with this update, visit <http://www.att.com/contactus>

4G speeds delivered by HSPA+ with enhanced backhaul. Available in limited areas. Availability increasing with ongoing backhaul deployment. Learn more at <http://www.att.com/network>

Additional information

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Specific functionality and features with each software version of Android may vary. Contact your service provider for details.
