

Software Upgrade for the DROID X by Motorola

Introduction

We are pleased to announce the new Android™ 2.3 (Gingerbread) software upgrade for DROID X by Motorola. The software upgrade (Motorola Version.4.5.602.MB810.Verizon.en.US) includes numerous enhancements and improvements

For more information on Motorola updates and repairs, visit us at www.motorola.com/mydroidx.

Who Can Use This Release

ALL DROID X by Motorola users, including those currently on: Version.4.5.596.MB810.Verizon.en.US and those on Version.2.3.340.MB810.Verizon.en.US.

After downloading and installing the Android 2.3 (Gingerbread) software release, you will notice:

Enhancements:

New User Interface and Color Scheme	New widgets, icons and screens have been added with refreshed colors.
Dock Icons	Icons at the bottom of each homescreen panel have been replaced with a new Dock. This Dock contains three swappable icons and the App Launcher icon. It is fixed to the bottom of all home screen panels for easy and instant access to your favorite apps and shortcuts.
App Groups	New App Menu allows creation of custom app groups, in addition to 3 default groups: All Apps, Recent and Downloaded.
Improved Word Selection and Copy Functionality	Words can now be selected via press-hold. A second press of the selected word copies the selected characters.
Multi-Touch Key-Chording	Numbers and symbols are available through keyboard shortcut combos, instead of having to change to the numeric keyboard mode.
App and Power Management Details	Manage Applications now provides improved information about what apps and services are running, how much memory and CPU time each are using, and the ability to close individual apps and services.
Download Manager App	New App will manage all of your downloads from web browsing, email attachments and other apps.
Emergent Groups and Smart Contacts	Based on usage, participant and addressee suggestions are made in Calendar entries, emails and text messages. You can create groups instantly based on the context of what you're doing. For example, quickly create a group based on a suggestion from a Calendar invitee list or the group of people with whom you're texting.
Updated Calendar Options	<ul style="list-style-type: none">• Calendar and event times can be displayed in your home time zone when traveling.• Individual reminders can be dismissed, such as dismissing one meeting reminder without dismissing other meeting reminders.• Easy conference dialing allows you to dial the conference number and the meeting code will be automatically entered directly from your Calendar.

Improvements

Phone operation	Numerous fixes have been implemented for users transitioning from Version.4.5.596.MB810.Verizon.en.US <ul style="list-style-type: none">• Improved LED indicators notification after a text message or a missed call.• Improved transfer of 3G data without interruption.• Changes implemented to avoid data stall in some conditions.
Calendar application	Various fixes were made to improve syncing, display of appointments, and updating of appointments.
Email application	Exchange Active Sync and POP3/IMAP fixes were made to improve email reliability.
Camera	<ul style="list-style-type: none">• Autofocus Camera feature has been improved for use in low-light conditions.• Geo-tagging feature was added to allow photos to be associated with specific geographic locations.
Battery	Battery life while using Bluetooth® has been improved.
Call back functionality	Fixes made to populate call back numbers in the dialer when coming from browser

Additional Information

There is no charge for this upgrade other than the usual data connection charges. Subject to change without notice. If you have difficulty with this upgrade, visit us at www.motorola.com/mydroidx

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Specific functionality and features with each software version of Android may vary. Contact your service provider for details.
