

## Testing Now Required

New regulations affecting all worldwide bulk transportation of lithium and lithium-ion cells and battery packs will soon be in effect. At Motorola Product Testing Services, our dedicated testing team is ready to perform the necessary testing for your products to comply with these new transportation regulations.\* We are experienced in providing altitude, thermal cycling, vibration, shock, external short circuit, impact, overcharge and forced discharge testing for lithium and lithium-ion cells and battery packs. Contact us at 770-338-3795 or visit our web site at [www.motorola.com/producttesting](http://www.motorola.com/producttesting) to request a quote and to learn more about our comprehensive product testing services.

\*as specified by the Amendments to the Third Revised Edition of the United Nations Recommendations on the Transport of Dangerous Goods, Manual of Tests and Criteria Part III, subsection 38.3
