

**CHOOSE IT WITH CONFIDENCE**

# MCC 7500 IP LOGGING RECORDER SOLUTION

When you need an ASTRO® 25 IP recording solution, you can rely on the Motorola-certified MCC 7500 Logging Recorder developed by Motorola and NICE® Systems, Inc.

## **MOTOROLA CERTIFICATION AND RELIABILITY: FOCUS ON THE MISSION, NOT THE TECHNOLOGY**

The MCC 7500 IP Logging Recorder works exclusively with Motorola MCC 7500 Dispatch Console, and is the only ASTRO 25 logging recorder solution with Motorola one-call customer service, rigorous production standards and pre-market performance testing.

With Motorola certified product assurance you gain:

**Confidence that the solution works** – The MCC 7500 IP Logging Recorder has met extensive Motorola performance specifications required for implementation on the ASTRO 25 IP Radio network. Plus, you get the uncompromising reliability and quality you've come to expect from Motorola.

**A simple, streamlined, one-stop shop for sales and support** – With Motorola, one call does it all. You get reliable customer care through the Motorola System Support Center and escalation through Motorola Central System Engineering.

**Optimal audio quality** – The MCC 7500 IP Logger records audio in its original, fully digital format, which allows audio to be heard exactly as it was first heard at the console position.

**Collaborative and timely technological advancements** – NICE logging solutions are part of the ASTRO 25 product development process, making NICE the only logging recorder solutions provider that advances in lockstep with the ASTRO 25 system.

## FACT SHEET

MCC 7500 IP LOGGING RECORDER SOLUTION

### MOTOROLA AND NICE® SYSTEMS, INC: A GATEWAY TO NEXT GENERATION PUBLIC SAFETY SOLUTIONS

Today's command centers are faced with an overwhelming amount of highly fragmented information. Further compounding this problem, citizens increasingly demand to supplement voice communications with input from mobile phones, text messages, digital cameras and more – creating a flood of unmanageable data.

With Motorola Integrated Command Center and NICE Logging incident reconstruction solutions, your dispatch center personnel can focus on making decisions, not on managing data.

Motorola and NICE System solutions are an integral part of the Motorola Integrated Command Center, a key cornerstone in Motorola Next Generation Public Safety solutions, that delivers advanced communications tools to protect the safety of responders and the security of our communities in the 21st Century. No matter what the future of multimedia brings, you can invest with

confidence that your system can grow as your needs grow with the Motorola Integrated Command Center and NICE Systems solutions.

Contact your Motorola sales representative today to get the one reliable logging recorder solution built exclusively for the ASTRO® 25 System.

### ONLY MOTOROLA CREATES INNOVATIVE PUBLIC SAFETY SOLUTIONS TRUSTED BY COMMAND CENTERS FOR MORE THAN 75 YEARS

Motorola is leading the way to a new generation of public safety solutions – combining advanced new technological capabilities with the reliability of the industry's most trusted mission critical solutions to provide real-time sharing of crucial voice, data and video communications where they are needed most.
