THE AFFORDABLE COMPANION FOR YOUR TWO-WAY RADIOS

Motorola's MAG ONE accessory line is designed to provide added value to your two-way radios at a new cool price. The range of audio accessories and batteries is optimized to assure maximum performance of your radio without bursting your budget. Ergonomically styled with a contemporary look, the accessories will complement your radios for an effective and hassle-free operation, no matter what profession you are in.

**COMPATIBILITY**

MAG ONE audio accessories are compatible with the latest GP2000 and GP68, GP88, GP300, GP308, GP328, GP338, GP329, GP339, PTX700, PTX760 & PTX780.

**MAG ONE - Audio Accessories**

MAG ONE audio accessories include earpiece, earset, headset and remote speaker microphone. These audio accessories work seamlessly with its radio giving you instant hands-free functionality and expanding your radio's transmission and reception capabilities immediately.

**EARPIECE & EARSET - LOOKING SMART AND LOOKING GOOD**

This cool consumer styled earpiece cradles comfortably on your ears as you go about performing your task with no compromise on audio quality. Simple in function, yet big in value.

**PMLN4442 / PMLN4556 & PMLN4443 / PMLN4557 FEATURES**

**One-piece Integrated Design**

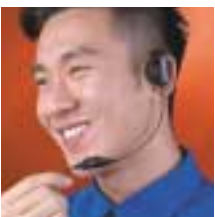

The one-piece consumer styling with an in-line thumb-style compact microphone/PTT eliminates the criss-crossing of wire. An adjustable garment clip provides flexibility to attach it to the body's clothing. Simple to use with better mobility giving you a sharper professional image.

**Unique PTT/VOX Switch**

When activated on a Voice Activated Transmission (VOX) capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push to Talk) button. To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

**Choice of Earpiece**

Users have a choice of the earbud or over-the-ear receiver. Whatever your preference is, both are equally comfortable and provide high level of privacy for listening and converse in matters of confidentiality.

MAG ONE Earbud with In-line Microphone/PTT/VOX Switch				
	PMLN4443		PMLN4557 (Professional Series)	
MAG ONE Receiver with In-line Microphone/PTT/VOX Switch				

## PMLN4444 & PMLN4445 / PMLN4558 FEATURES

### Lightweight & Flexible

The ultra-light and flexible single-side earset fits comfortably on both ears. An earhook wraps behind the ear provides added firm grip for moderate activity work operation. Choose also from the over-the-head style headset with soft rubber ear-muff that provides extra comfort and stability during extended wear and usage.

### Adjustable Boom Microphone

Ideal in a noisy environment, the gooseneck boom microphone can be adjusted close to the mouth for clear message transmission, minimizing any interference or need to repeat the transmission. An effective tool for total hands-free operation.

### Unique PTT/VOX Switch

When activated on a Voice Activated Transmission (VOX) capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push to Talk) button. To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

<p><b>PMLN4445</b> MAG ONE Ultra-light Headset with Boom Microphone &amp; In-line PTT/VOX Switch</p>		
<p><b>PMLN4558 (Professional Series)</b> MAG ONE Ultra-light Headset with Boom Microphone &amp; In-line PTT/VOX Switch</p>		

\*Requires HLN 9716 audio adapter for Professional Series' radios

## REMOTE SPEAKER MICROPHONE - MAXIMUM OPERATIONAL FLEXIBILITY

The sleek and compact Remote Speaker Microphone enables 2-way communication with minimum hassle to deliver maximum productivity and safety in your day-to-day business operation.

With remote speaker microphone, users can enjoy greater convenience in listening and talking without the need to remove the radio from the belt or carrying case.

## PMMN4008 /PMMN4009 FEATURES

### Small & Ergonomic

The palm sized housing fits ergonomically to the user's hand.

### Innovative Reflex Acoustic Port

Reduces echoing effect and improves audio intelligibility, making audio output natural, clear and loud.

### Adjustable Swivel Clip and Coil Cord

Provides users with the flexibility to secure the Remote Speaker Microphone to clothing, enabling instant access and convenience. Coil cord allows flexible extension from the radio to suit user's preference.

<p><b>PMMN4009 (Professional Series)</b> MAG ONE Remote Speaker Microphone</p>		

## MAG ONE - Portable Radio Batteries

There is a choice of batteries from the MAG ONE line to complement your radios available at a competitive price too.

<p><b>WPPN4012_R</b> Type: Nickel Cadmium Dimension: 5.9 x 2.4 x 14 (cm) Weight: 230 gm Ave. mAh: 1150 mAh Radio Compatibility: GP300 &amp; GP88</p>	
<p><b>PMNN4045_R</b> Type: Nickel Metal-Hydride Dimension: 5.5 x 2 x 12.5 (cm) Weight: 207 gm Ave. mAh: 1200 mAh Radio Compatibility: GP328/338, PTX700/760/780</p>	

## MAG ONE - Warranty for Peace of Mind

All MAG ONE accessories come with a six month warranty that covers manufacturing defects in material and workmanship under normal use and service.

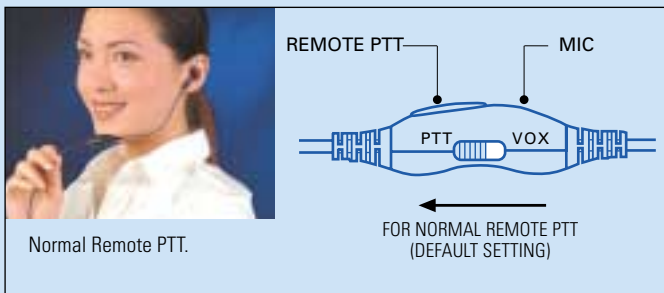

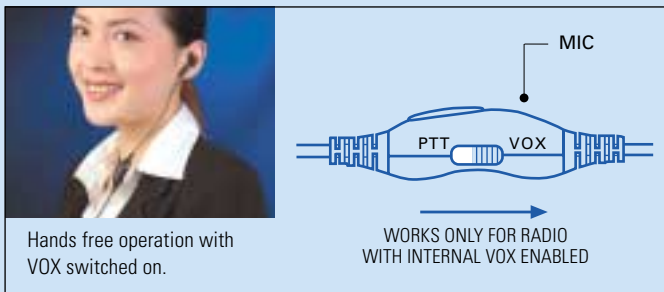

## WHY IS MAG ONE PTT/VOX UNIQUE?

This unique 2-in-1 feature is suitable for use with VOX-capable and non VOX-capable 2-way radios.

When activated on a Voice Activated Transmission (VOX) capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push to Talk) button.

To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

## ERGONOMIC DESIGN

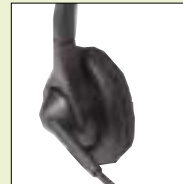

Adjustable garment clip provides flexibility to attach accessory to the clothing. Simple to use with better mobility giving you a sharper professional image.

Adjustable Garment Clip

Adjustable Swivel Clip

Soft rubber ear-muff provides extra comfort and stability during extended wear and usage.

Soft Rubber Ear-Muff

### CAUTION

Do not set to VOX position for radio with no internal VOX feature. This will cause a continuous transmit and no incoming message can be received.

Refer to your radio User's Manual to check if your radio supports VOX capability and for additional information.
