

Dimetra™ IP Compact

Scalable TETRA Solutions for Critical Communications

Key Benefits Include

Scalable in size & features

- Modular, scalable solution from voice only to full system capability, from single site to multi site

Proven capability & feature set

- Same Dimetra IP architecture in use by public safety, transportation, industrial and commercial users across the world

Compact, efficient & flexible

- Low cost of ownership, through compact size

Secure, Trusted and Reliable Integrated Voice & Data Solutions

IP based solutions for critical communications

Dimetra IP Compact delivers a comprehensive, scalable communications solution using an enhanced IP architecture to ensure optimum call set up and availability. The modular approach allows users to deploy core services and expand features and coverage when demand or budgets allow.

Modular, scalable solution to grow with you

The flexible architecture of Dimetra IP Compact allows you to start small and grow as your business grows. Whether starting from a single site or with voice only, our solutions allow you to expand when you want – and without disrupting your existing users.

Proven capability & feature set

Dimetra IP Compact uses the same software and architecture as our nationwide TETRA solutions in use by public safety organizations worldwide. This gives you access to a tried and tested range of features and a commitment to ongoing development and support.
