

SRCU

Standard Remote Control Unit

Easy Access to Your Service Applications

A classic remote control redesigned to fit the VIP1900's series. The SRCU allows easy access to your service applications through the IP set-top specific functionality keys. When designing the IP set-top system, operators can use the IR protocol to map any remote control key to trigger the desired set-top functionality.

For more information regarding any of these features contact your Motorola sales representative.
