

### Information for treatment facilities

|                                   |   |
|-----------------------------------|---|
| <b>Producer</b>                   | <b>Motorola</b>                                 |
| <b>Scope of information sheet</b> | <b>Product Category: 3</b>                      |
|                                   | <b>Type of Equipment: Wireless (BT) Headset</b> |

| <b>Component or Material</b>  | <b>Remarks / Location</b>                                     | <b>Location Req. 1)</b> |
|---|---|-------------------------|
| Battery (internal *) containing Mercury (Hg)/ NiCad/Lithium/Other   | Lithium-Ion/internal main PWB<br>No lead, Mercury, Cd or CrVI | ↓                       |
| Backlighting lamps of LCD/TFT or similar screens containing Mercury (Hg)  | NA  |                         |
| Mercury (Hg) in other applications**  | None  | ↓                       |
| Cadmium**   | NA  |                         |
| Gas discharge lamps   | None  |                         |
| Plastic containing brominated flame retardants other than in Printed Circuit Assemblies ***   | None greater than 25g.  |                         |
| Liquid Crystal Displays with a surface greater than 100 cm <sup>2</sup>   | None  |                         |
| Capacitors with PCB's   | None  | ↓                       |
| Capacitors with substances of concern**** + height > 25 mm, diameter > 25 mm or proportionately similar volume  | None  | ↓                       |
| Asbestos  | NA  |                         |
| Refractory ceramic fibres   | None  |                         |
| Radio-active substances   | NA  |                         |
| Beryllium Oxide (BeO)   | None  | ↓                       |
| Other forms of Beryllium (Be)   | BeCu in electrical contacts                                   |                         |
| Gasses - which fall under Regulation (EC) 2037/2000 and all hydrocarbons (HC)   | NA  | ↓                       |
| Components with pressurised gas which need special attention (Pressure > 1,5 bar) *****   | NA  | ↓                       |
| Liquids ***** if volume > 10 cl (or equivalence in weight, e.g. for PCB, oil...)  | NA  | ↓                       |
| Mechanical components that store mechanical energy (i.e. springs) or equivalent parts which need special attention ***** (diameter > 10 mm and height > 25 mm or proportionally similar volume and expanding) | NA  | ↓                       |

NA = Not Applicable

↓ = arrow indicates the need for the location of the compartment/ substances within the product.  
When the location of a substance/ components is requested, it is at part level, e.g. main board, housing etc

\* Internal means that batteries can only be removed by opening the product by means of (a) tool(s).

\*\* Substances are considered to be in the product if present above the levels specified in Commission Decision 2005/618/EC related to Directive 2002/95/(EC) (RoHS Directive) or if their use is permitted exemptions in the Annex of Directive 2002/95

\*\*\* To be coherent with industry current standards and practices on tracking of plastic parts, Directive 2002/96 (EC) Annex II requirement is understood to focus on plastic parts that weight more than 25 g.

\*\*\*\* Substance of concern other than PCB, to be specified/ addressed further in the context of Directive 2002/96 (EC) Annex II national requirements and European developments

\*\*\*\*\* Needs of equivalent nature as those for maintenance, service manuals and installation for safety purposes.
